

STATE OF HAWAII
DEPARTMENT OF EDUCATION
P.O. BOX 2360
HONOLULU, HAWAII 96804

OFFICE OF THE SUPERINTENDENT

December 3, 2020

TO: The Honorable Kenneth Uemura
Chairperson, Finance and Infrastructure Committee

FROM: Dr. Christina M. Kishimoto
Superintendent

A blue ink signature of Dr. Christina M. Kishimoto, written over the name "Dr. Christina M. Kishimoto" in the "FROM:" field.

SUBJECT: **Committee Action on Department of Education's repair and maintenance priority list in accordance with Board Policy 301-10, Equitable Allocation of Facilities Resources (FIC Strategic Priority 2)**

I. Executive Summary

The Hawaii State Department of Education (Department) is charged with the stewardship of a statewide building portfolio valued at \$10 billion. This portfolio includes 263 schools covering over 20 million square feet with 4,425 separate buildings with an average age of 48 years.

Most repair and maintenance (R&M) work to address normal wear are routine and relatively low cost. For example, spot painting, minor leak or water line repairs, and other minor facilities-related malfunctions. However, as buildings and major building systems age (e.g., plumbing, electrical, etc.), the magnitude, frequency, and cost of repairs will increase significantly over time. In comparison to a complete rebuild or replacement, the usage of R&M has a limited life cycle. Thus, its related costs are not eligible for bond funding and instead must be supported by general funds (also referred to as "A" funds).

Costs for major building renovations or replacements that will extend the useful life of a facility or enhance functional usage are much higher than normal R&M and can be funded by bonds. Consistent with the terminology commonly used by industry, the Department has labeled this type of major R&M work as Deferred Maintenance Projects (DMPs). In order to align with Department capitalization policies as set forth in the State of Hawaii Comptroller Memorandum No. 2005-19 and bond funding requirements, DMPs are defined as major R&M projects which:

- Cost more than \$100,000 AND
- Extends the useful life of a building/facility by ten years or more AND
- Is a qualified use of bond funding

The Department must prioritize school facilities DMP needs in a strategic, thoughtful, consistent and equitable manner. Based on the weighted scoring system for Capital Improvement Program (CIP) projects, the Department has developed a weighted scoring system for DMPs to ensure facilities are properly, efficiently, and equitably maintained. Several variables are utilized in this scoring system to ensure all students have safe, accessible, and supportive school spaces. These variables include:

- Code Compliance
- Health/Safety
- Condition
- Instructional Impact
- Title I status
- Comprehensive Support and Improvement (CSI) standing

While the current total of identified DMP projects is about \$898 million (see Attachment A3), the Department is recommending for the Board of Education's (Board) consideration a proposed DMP priority list totaling \$168 million as detailed in Attachment A2. This amount is included in the Department's CIP biennium budget request for Fiscal Year (FY) 2021-2023 as a separate action item.

II. History of Subject Matter

During the July 18, 2019 General Business Meeting (GBM), the Board adopted as one of the Finance and Infrastructure Committee (FIC) strategic priorities for the 2019-2020 school year to "establish the policies and structures necessary to direct and enable the Department to complete all facilities projects at its schools with the greatest socioeconomic and academic needs as determined by a priority order intended to advance equity" (FIC Strategic Priority 2)¹.

At its August 15, 2019 meeting, FIC approved the work plan and timeline to ensure Board policies and structures enable the Department to complete all facilities projects at our schools with the greatest socioeconomic and academic needs as determined by an equity priority order (FIC Strategic Priority 2). As part of its work plan, FIC recommended for Board approval (1) a policy related to equitable school facilities that would, at a minimum, sufficiently direct the Department to complete R&M at our schools by order of greatest socioeconomic and academic needs and

¹http://boe.hawaii.gov/Meetings/Notices/Meeting%20Material%20Library/GBM_20190718_Action%20on%20standing%20committee%20strategic%20priorities%20for%20SY%202019-2020.pdf

(2) a comprehensive, cohesive, and effective R&M priority list that is sufficiently based on equity.²

During the September 19, 2019 FIC meeting, the Department presented a draft Board policy entitled “Equitable School Facilities.” Due to concerns regarding equity, FIC elected to defer action on the draft Board policy.³

During the October 3, 2019 FIC meeting, Committee Chairperson Kenneth Uemura tasked Committee Vice Chairperson Bruce Voss to revise the draft equitable school facilities policy and tasked the Department to draft an R&M priority list. The draft policy and draft R&M priority list would be presented to FIC at its November 21, 2019 meeting.⁴

During the November 21, 2019 FIC meeting, the committee unanimously voted to adopt Committee Vice Chairperson Voss’s proposed policy, which is now Board Policy 301-10, Equitable Allocation of Facilities Resources.⁵ FIC deferred action on the Department’s R&M priority list to its January 16, 2020 meeting to allow the Department to fully incorporate the new policy as described in Committee Vice Chairperson Voss’s memorandum dated November 21, 2019.⁶ Further, at its GBM, the Board unanimously voted to adopt Committee Vice Chairperson Voss’s proposed policy, which is now Board Policy 301-10, Equitable Allocation of Facilities Resources.⁷

At its February 20, 2020 meeting, FIC deferred defer action on the Department’s R&M priority list to the Committee’s April 16, 2020 meeting to provide the Department with additional time to ensure that (1) all of the questions posed by committee members at previous meetings are answered; (2) the proposals fulfill the intent of the Board policy on Equitable Allocation of Facilities Resources; and (3) the proposals fulfill the Board’s expectations, as described in Committee Vice Chairperson Voss’s November 21, 2019 memorandum.⁸
The April 16, 2020 FIC meeting was cancelled.

At its November 19, 2020 meeting, FIC deferred action on the Department's priority criteria for executing CIP projects to the Committee's December 3, 2020 meeting to provide time for the Department to make revisions based on the discussion and recommendations of the meeting. (Committee minutes pending.)

III. Purpose of the Report

Board Policy 301-10, Equitable Allocation of Facilities Resources was adopted to enable the Department to complete facilities projects at our schools with the greatest socioeconomic and academic needs to advance equity (FIC Strategic Priority 2). In practice, this will be achieved by incorporating Title I and CSI into the weighted score rubric in order to create a priority list for DMP projects.

By using a weighted scoring rubric, both socioeconomic and academic needs are considered along with other relevant factors into the establishment of the proposed DMP priority list. Socioeconomic needs are identified using a current list of schools eligible for support under Title I, Part A (Title I) of the Elementary and Secondary Education Act of 1965, as amended by the Every Student Succeeds Act (ESSA). Title I is the federal education program that provides financial assistance to local educational agencies and schools with high numbers or high percentages of children from low-income families to help ensure that all children meet state academic standards.

Academic needs are identified using a current list of schools identified for CSI under the Department's Consolidated State Plan for ESSA. The CSI schools are schools with performance challenges that warrant the extensive support from federal and state resources for improvement. The Department identifies schools for CSI once every three years.

The proposed DMP priority list was created to ensure (1) a baseline requirement of safe and accessible facilities and (2) facilities that support the socioeconomic and academic needs of a school's student population as defined in Committee Vice Chairperson Voss's November 21, 2019 memorandum. The DMP priority list will inform the Office of Facilities and Operation's (OFO) budget request as part of the Department's budget process.

Board approval of the proposed DMP priority list will enable the Department to proceed with completing our facilities projects in an equitable manner.

IV. List of Key Issues

The proposed DMP priority list identified school projects in accordance with the Board's Equitable Allocation of Facilities Resources policy. The list has factored in

the socioeconomic and academic needs of a school's student population along with projects that have been initiated and are in some stage of design.

The facilities' square footage and age were considered in the establishment of the DMP priority baseline list. OFO continues to work on identifying and implementing industry standards that would provide greater detail on the condition of school facilities.

V. Discuss Any Financial Impact Evident in Subject Matter

The Legislature appropriates a lump sum for DMPs to the Department to allow it the flexibility to move funds between projects to account for budget shortfalls and surpluses on any specific project. Some of this flexibility was curtailed during the 2019 legislative session per a proviso that required \$70 million of the R&M lump sum in FY 2020 and FY 2021 to be used for job order contracting (JOC).

The Department has had access to the FY 2020 funds for about eight months. To date, it has spent roughly \$24 million using the JOC procurement method. This method has allowed the Department to complete projects at a faster pace than the normal design-bid-build method.

VI. Describe Any Community or Public Engagement

OFO has engaged with the complex area superintendents who will reach out to their complex area principals for input on the weighted scoring rubric and list of DMP priority projects. Moving forward, OFO will incorporate school input as a standard practice in conjunction with identifying and prioritizing CIP and DMP plans.

VII. Recommendation

The Department recommends that the Board approve the proposed DMP priority list totaling \$168 million to be included in the Department's biennium budget request for Fiscal Year 2021-2023.
