Kamalani is providing educational support to our family that I have not found anywhere else. Blended learning, teacher support, report cards and guidance are what my children need to succeed in their education. My daughter has a 504 plan and with the uncertainty of covid impacting in person school I wanted to avoid disrupting my kids education. I chose Kamalani as a perfect solution to my children's educational needs and our concerns about covid and scheduling difficulties of an uncertain school schedule.

Kamalani is helping to ensure my 3 school age kids are going to meet all the state standards and provide a consistent education that is well supported.

Please do not disrupt the children's education and blended learning. My child with a 504 plan is doing well with blended learning. Less anxiety and better able to complete work with the blended learning opportunities provided by Kamalani.

Thank you for your time,
Kathryn Smith
