GOVERNOR

CATHY K. IKEDA
CHAIRPERSON

STATE OF HAWAII
STATE PUBLIC CHARTER SCHOOL COMMISSION
('AHA KULA HO'ĀMANA)

1164 Bishop Street, Suite 1100, Honolulu, Hawaii 96813
Tel: (808) 586-3775

DATE: November 17, 2022

TO: The Honorable Bruce Voss, Chairperson
Hawaii State Board of Education

FROM: Yvonne Lau, Interim Executive Director
State Public Charter School Commission

AGENDA ITEM: Presentation on Charter School Commission annual report

The State Public Charter School Commission is pleased to submit its annual report on Hawai'i's charter school sector for the 2021-2022 school year to the Board of Education for its general business meeting on November 17, 2022. The Commission approved this report at its general business meeting on November 10, 2022.

Please contact me with any questions at yvonne.lau@spcsc.hawaii.gov or (808) 586-3775.

State Public Charter School Commission

Executive Summary

This annual report is the eleventh issued by the Hawai‘i State Public Charter School Commission (“Commission”) since its inception in 2012 and provides information on Hawai‘i’s public charter school system for the 2021-2022 school year.

During the 2021-2022 school year, 37 public charter schools were in operation, and 2 new charter applications were approved.

Charter School Performance

The contracts of all of Hawai‘i’s charter schools include a performance framework that the Commission uses to evaluate schools’ performance in three areas: academic, financial, and organizational.

Academic Performance

The Hawai‘i State Department of Education (HIDOE) annually evaluates all public schools statewide through its Strive HI Performance System. The Commission, as authorizer of Hawai‘i’s charter schools, evaluates the academic performance of each school annually through its Academic Performance Framework (APF). The APF incorporates data from many of the Strive HI measures, and allows for additional flexibility such as offering Hawaiian immersion charter schools the option to request the exclusion of English assessment results for grade levels taught primarily in Hawaiian. A significant feature of the APF is the mission aligned indicator which provides schools the opportunity to demonstrate their commitment to, and focus on, their school’s unique mission and vision as stated in their contract. This mission focused initiative measures the extent to which schools implement teaching and learning aligned to their mission. Additionally, school-selected and school-developed measures provide a comprehensive analysis of charter schools’ academic performance, taking into account the unique features and innovative practices of charter schools.

Academic Performance Framework

The Commission annually evaluates the academic performance of all public charter schools in Hawai‘i using the APF, the Commission’s academic accountability system. Currently there are two versions of the APF defined in two separate Charter Contract iterations. The Contract 3.0 APF, which was

implemented in school year 2017-2018, uses measures from Strive HI, plus information related to school-selected measures approved by the Commission and included in a school’s Charter Contract and contains student academic outcomes and value added measures. The Contract 4.0 APF, which was implemented in the school year 2021-2022, combines measures from Strive HI and measures aligned with the school specific Mission/Vision as stated in their Charter Contract. Additionally, Contract 4.0 APF provides two options for schools to further demonstrate their academic progress. Comparative Performance measures provides schools an opportunity to look at their data in relation to Complex, Complex Area, or the Charter School Portfolio. School Reported Data - Site-Relevant Diagnostics measures allow schools the opportunity to report unique measures that have relevance to their particular school program. School Reported Data - Site-Relevant Diagnostics measures prompt schools to reflect upon data disaggregation to inform curriculum, instruction, and assessment processes. Data from the APF continues to help schools develop their programs within the unique communities they serve.

Student Academic Outcomes

Both Charter iterations of the APF described in the section above yield data that is relevant to each unique charter school site. The schools’ performance on these measures is reported in Appendices A and B.

Overall, 22% of charter schools (eight schools) met/exceeded State and Charter proficiency averages in all three areas tested: Math, Language Arts, and Science. Further, 24% of charter schools met/exceeded both State and Charter averages for Math; 35% of charter schools met/exceeded both State and Charter averages for Language Arts; and, 38% of charter schools met/exceeded both State and Charter averages for Science.

Finally, a majority of charter schools kept their students engaged and learning based on Strive HI data. Of the 37 charter schools in the portfolio, nearly all reported feeling positive about their school (Panorama survey). Site visits of all 37 schools in spring of 2022 confirmed this data from the Panorama survey.

Financial Performance

The Financial Performance Framework (FPF) incorporated a risk-based assessment to measure financial performance for Hawai‘i charter schools. Utilizing this method of assessment, the Commission was better able to assess the potential risk of fiscal insolvency for each school using a balanced weighted formula that incorporated six fiscal measures.

The results of the risk assessment show a measure of fiscal stability within the charter school system, as no charter schools received a “High” or “Significant” risk rating in school year 2021-2022. Fifteen (15) charters were assessed a risk of “Low”, the optimal measure of risk for this assessment. Another nineteen (19) schools received a risk rating of “Acceptable” and appear to have a solid fiscal foundation for sustainability. Three (3) schools received a risk rating of “Moderate” for school year 2021-2022.

Organizational Performance

For the 2021-2022 school year, the Organizational Performance Framework (OPF) continued to monitor operational compliance through required submissions to the Commission’s online compliance management system, direct submittals, and Commission staff’s annual site visits to schools in Spring 2022.

For schools on Charter Contract 3.0, the following indicators were monitored:

1. List of Key School Employees/Contacts
2. Uniform Information Practices Act: Annual Log and Semi-Annual Summary Log
3. Governing Board Membership Roster
4. Student Admission Packet Material for Upcoming Student Application Period
5. Annual Fire Inspection Report
6. Statement of Assurances
7. Policies and Procedures
8. Executed School Leases

For schools on Charter Contract 4.0, the following indicators were monitored:

1. School Charter and Mission
2. Governance
3. School Performance
4. Academic Performance
5. Financial Management
6. Admission, Enrollment, and Attendance
7. General Operation of School
8. Educational Service Provider
9. Health and Safety
10. Student Records and Data
11. School Facilities
12. Personnel and Employment
13. Insurance and Legal Liabilities
14. Commission Oversight and Responsibilities
15. Notice of School Emergency Closure Mandatory Notification
16. Additional Obligations

Commission’s Priorities for the 2021-2022 School Year

Following its revised strategic plan goals, the Commission and its staff continued to exercise its authorizer functions of oversight and accountability, while guiding schools into compliance with their charter contracts and the Commission’s performance expectations.

Implementation of the Revised Strategic Plan Goals and Strategies through the meeting of Milestones and Actions for the year

The Revised Strategic Plan lays out three Goals, six Strategies and eight Milestones to take action on for the 2021-2022 school year. The Commission was able to meet seven out of eight Milestones for the year, with the one outstanding Milestone moved into the 2022-2023 school year with a targeted completion date of December 31, 2022. (See II. Revised Strategic Plan on page 10).

Early Learning and a P-3 System in Charter Schools

With the conclusion of the federal prekindergarten grant awarded to the Commission four years ago, 11 public charter schools established 17 public charter school classrooms across the state, ensuring that our youngest learners begin their journey of lifelong learning with a strong foundation. This investment by the federal government was followed by the state's commitment to a high-quality public early learning system by the enactment of Act 276, Session Laws of Hawai'i (SLH) 2019. The state's commitment resulted in the first state-funded prekindergarten classrooms in charter schools and the initiation of a prekindergarten to Grade 3 (P-3) continuum of learning, which are key components of the Commission's strategy. Through state funding, the Commission worked with these charter schools to establish a P-3 learning system that is designed to build foundational learning for its students and future improvements in student outcomes. While there are multiple facets of P-3 alignment, schools requested support in building or refining effective instructional practices that promote student engagement and learning. This led to the partnership with three faculty members and a consultant with the Harvard Project Zero Graduate School of Education to build on the instructional practices of our charter schools. With a system-building approach, the participating public charter schools worked to sustain and grow school-wide cultures of thinking and learning across all classrooms. The Thinking Classroom program strives to build a strong charter school network that is grounded in high-quality instruction and thinking practices. The Commission and its partnered public charter schools continue to engage in the work of The Hawai'i Thinking Classroom and in the refining of instructional practices in our classrooms. Ultimately, the goal is to improve student outcomes through deeper thinking, learning and understanding.

Federal Programs: Titles 1, 2, and 4; Comprehensive Support and Improvement (CSI); and Targeted Support and Improvement (TSI)

The Commission's Federal Programs Team supported 23 of the 37 charter schools. Of the schools receiving federal funds, 23 received Title 1 funds, which are designated for schools at which 47.2% or more of the total student population is eligible for free or reduced-price meals. In addition, 11 of the 23 supported schools received CSI funds, and two received TSI funding.

A specific focal point of the work in the school year 2021-2022 was helping charter schools to set their proficiency targets, develop growth measures, and mission-aligned outcomes. The overall goal of this work was to align the needs with the plan and spending to result in greater student success and overall school improvement. The Federal Programs Team designed rich professional development opportunities that enhanced schools' vision and mission by strengthening identity and improving student outcomes.

The multi-faceted focus of the professional development design sessions included cultural sustainability, data visualization, spiral inquiry, and outcomes based learning.

I. Introduction

This Annual Report is the eleventh to be issued by the Hawai‘i State Public Charter School Commission (“Commission”), which was created under Act 130, SLH 2012 (Act 130), as the State’s only statewide charter school authorizer. This report addresses developments during the 2021-2022 academic and fiscal year.

Act 130 established a new charter school law for Hawai‘i, codified in the new Hawai‘i Revised Statutes (HRS), Chapter 302D. Among other things, the new law:

1. Assigned to the Commission the mission of authorizing high-quality charter schools throughout the State and envisioned that the Commission focus primarily on its core accountability-related authorizer functions;
2. Mandated that the State Public Charter School Contract (“Charter Contract”) be executed with each charter school and incorporate a performance framework for the schools;
3. Required that each charter school be governed and overseen by its own governing board, with a shift in emphasis from a community and constituency-based board model under the previous law to one that emphasized a more robust governance role with substantive skill sets relevant to effective governance and school oversight; and
4. Required this Annual Report and its contents.

As of November 21, 2013, all 33 Hawai‘i public charter schools then in existence had entered into the first Charter Contract, which incorporated a Performance Framework comprising three substantive areas: Academic, Financial, and Organizational. The Commission's first Charter Contract was still a work-in-progress because the HDOE’s new school accountability and improvement system for all Hawai‘i public schools, both DOE and charter — called the “Strive HI Performance System” — had yet to receive federal approval. In order to allow for the development of the APF, and to allow the Commission and the schools to gain experience with the other Frameworks and Charter Contract provisions, the first Charter Contract had a term of only one year. No school faced potential non-renewal of its Charter Contract for inadequate performance.

During the 2013-2014 school year, after extensive meetings with the charter schools, both the APF and the second Charter Contract were finalized and adopted. The second Charter Contract incorporated the new APF, a more developed OPF, and retained the same FPF approved in June 2013. The third Charter Contracts were for three years for 33 schools, from school year 2014-2015 to school year 2016-2017. Subsequently, charter schools received new charter contracts for terms ranging from two to five years based upon the individual school’s performance under the Performance Framework.

As the COVID-19 pandemic continued to affect school operations, the Commission again extended the timeframe for schools renewed in Spring of 2020 to meet renewal conditions prior to execution of the new five-year contract (leases reviewed and approved by the Deputy Attorney General, governing board training/governance plans, school-created blended learning programs, school leadership concerns). Some of the conditions were ultimately removed or extended into the start of the new charter contracts due to circumstances beyond the schools’ control.

The Commission approved and executed new charter contracts for all 13 renewed schools, but extended the timeline for the following schools to meet the conditions set out by the Commission:

- School leases: Seven of the 13 schools were granted extensions to attain an Attorney General-approved lease.
- School-created blended learning program: Two of the three schools to which this requirement applied were granted additional time to meet the conditions; otherwise, they would no longer have the authority to provide their respective programs in the 2022-2023 school year.
- Removed some conditions for renewed schools dependent upon the summative assessment data that was not available due to the assessment not being administered, and unlikely to be useable in the near future due to the continuing effects of COVID-19 on school operations and student learning; instead, the Commission placed the schools on the APF expectations for Charter Contract 4.0ⁱ, which provided some additional academic measures that were not dependent on the summative assessment data.

However, due to the impacts of COVID-19 and the disruption to the instruction of students and the administration of the state-wide assessments the Commission was no longer able to measure the academic performance of these 13 schools. The Commission spent nearly the entire year working with and listening to schools about the next iteration of the charter school contract and the three performance frameworks. The Commission documented its work throughout the year on the resulting new contract and performance frameworks and can be found on its website.ⁱⁱ

This report encompasses the reviews of individual school performances for the school year 2021-2022.

II. Strategic Plan

a. Revised Strategic Plan

During the 2021-2022 school year, recognizing that the effects of COVID-19 had rendered the previously adopted Strategic Plan unimplementable, the Commission completed its review and adopted its revised strategic plan. The Commission formally approved and adopted its revised strategic plan on September 21, 2021.

i. Revising the Mission

Revisiting all facets of the Strategic Plan, the Commission revisited the statutorily defined mission of the Commission stated in Hawai'i Revised Statutes:

§302D-3 State public charter school commission; establishment; appointment. (a) There is established the state public charter school commission with statewide chartering jurisdiction and authority. The commission shall be placed within the department for administrative purposes only. Notwithstanding section 302D-25 and any law to the contrary, the commission shall be subject to chapter 92.

(b) The mission of the commission shall be to authorize high-quality public charter schools throughout the State.

and revised it's mission to explicitly include its statutorily defined essential powers and duties as stated in HRS §302D-5.

The revised Mission of the Commission states:

Our mission is to authorize high-quality public charter schools throughout Hawai'i by soliciting, evaluating, and approving applications for new schools; negotiating and executing sound school contracts; monitoring performance and legal compliance of our schools; and determining renewal, nonrenewal, or revocation of their charter contracts.

ii. Revising the Vision

The Commission also revisited its vision and honed it to a more concise vision and separating and making explicit its values.

The revised Vision of the Commission states:

Our vision is to authorize, actualize, and amplify high-quality diverse educational options that prepare students for future academic or career success as contributing members of our community, and through our work, inform, enhance, and contribute to Hawai‘i’s public education system.

iii. Revising and Augmenting the Commission’s Values

The Commission’s Values:

The Commission, as a Hawai‘i state agency, in fulfillment of its responsibilities, obligations and service to the people of Hawai‘i, will operate with the “Aloha Spirit” as defined in Hawai‘i Revised Statutes, Chapter 5, Section 5-7.5: Akahai (kindness with tenderness), Lōkahi (unity with harmony), ‘Olu‘olu (agreeable with pleasantness), Ha‘aha‘a (humility with modesty), and Ahonui (patience with perseverance).

Additionally, the Commission adopts the following overarching values that augment the “Aloha Spirit” and describes the Commission’s beliefs and ethos:

<i>Mohala</i>	<i>Pili</i>	<i>Pono</i>
we believe that our work results in the blossoming of our schools	we are tied to our schools	we do this work for accountability and uprightness at all times
<p><i>Mohala i ka wai ka maka o ka pua.*</i></p> <p><i>Unfolded by the water are the faces of the flowers.</i></p> <p>Flowers thrive where there is water, as thriving people are found where living conditions are good.</p> <p>#2178</p>	<p><i>Pili ‘ohā, he kāmau mai mawaho.*</i></p> <p><i>A taro off-shoot relationship added to the outside of the corm.</i></p> <p>One who was not a relative, yet is a member of the household.</p> <p>#2652</p>	<p><i>He ‘ike ‘ana ia i ka pono.*</i></p> <p><i>It is a recognizing of the right thing.</i></p> <p>One has seen the right thing to do and has done it.</p> <p>#620</p>

*Pukui, Mary Kawena. *‘Ōlelo No‘eau, Hawaiian Proverbs and Poetical Sayings*. Bishop Museum Press. Honolulu, Hawai‘i. 1983

iv. The Commission's Logo – symbolizing our mission, vision, and values

With renewed dedication to its work, the staff of the Commission created a logo that reflects the mission, vision, and values of the Commission.

Our logo tells the story, the mo'olelo of hopes, dreams, who we the Commission are, and our sense of place in the islands.

In 1840 King Kamehameha III established in Hawai'i what is the oldest public education system west of the Mississippi and the only one established by a sovereign monarch.

To explain some of the images found within our logo we start with the sun at the top of the circle. Ua ao Hawai'i ke 'ōlino nei mālamalama, (Hawai'i is enlightened for the brightness of day is here. Hawai'i is in an era of education).

The pueo, or owl, in Hawai'i is a beloved 'aumakua for many families. It is also an internationally recognized symbol for education and wisdom. On the chest of the pueo are eight markings that represent our islands. The wings spread across the islands represented by the pali in the background establishing our place in the Pacific, the islands united by education. The pueo is poised and watches over the book of wisdom, our charter schools, who educate our students allowing them to voyage into the future, lifelong learners and explorers of knowledge following in the wake of our Polynesian ancestors who made their own voyages of discovery.

While the pali represent our islands being united through education, they hold multiple meaning. It is the first thing the voyager sees rising up from the ocean, there is always a sense of pride and awe at the breathtaking beauty they possess. They rise like ancient guardians who anchor us to this place and at the same time they serve as a reminder of the motto of Queen Kapi'olani, Kūlia i ka nu'u, strive to reach the highest.

The wa'a, canoe, representing the students, sail from out of the pages of the book of wisdom - each on their own individual journeys, some taking them far beyond the shore on an ocean that connects us to the world. They sail in different directions emphasizing 'A'ohe pau ka 'ike i ka hālau ho'okahi, not all

knowledge is taught in the same school, which characterizes the individualism and innovation of our Charter Schools.

The kapa design that bridges the center of the circle represents the islands and the generations that live here - our past, present, and future - our communities which benefit and nourish our children with shared wisdom and knowledge.

The kalo, (37 for our existing charter schools), represent our keiki and remind us of how we are all connected through the ‘āina to Hāloa, traditionally our first ancestor and his older brother the kalo that nourishes and sustains the people.

Beneath the kalo are renderings to represent the currents, the big currents and the little currents, ‘ike i ke au nui me ke au ike, knows the big currents and the little currents, meaning one is well-versed. In deciding what to put here there was some thought and some direction based on a couple different uses of the big and little currents. With respect to teaching, E kuhikuhi pono i nā au iki a me nā au nui o ka ‘ike, an admonition to instruct well in the little and large currents of knowledge, the small details are as important as the large ones. This applied to our schools as well as our work at the Commission. There is an ōlelo no‘eau that touches on learning the big and little current, learning the details, he alo a he alo. Lastly, the phrase aia no i ke kō a ke au, whichever way the current goes, time will tell.

The ornamentation along the edges of the circle are simple, but they are reminders of the lashings on our canoe. “Pilina,” which is similar to Pili, means to bind. Pilina is association, relationship, and connection. The lashing of a canoe, “aho hoa wa’a,” is a complex process, and a sacred process. It is both an art and a science in that it needs to be strong enough to withstand thousands of pounds of torque from rough smashing waves in open ocean, tight so there is no give, but allow some flexibility without too much wobble. And yet, it can be beautiful in its connections and geometric configurations. We are tied together for our journey, the Commission and the charter schools, as we voyage into the future sharing innovative education with the State and possibly beyond.

v. Achieving the Revised Mission and Vision with Commitment to its Values

Aligning the Strategic Plan to the newly revised Mission, Vision, and Values, the Commission’s Goals were narrowed and focused on the core duties of the Commission:

The Commission’s three goals for implementing its revised Strategic Plan embodies a continuous improvement process, within each goal and among all three goals, moving it to higher and greater efficacy, to attain its vision through its mission.

Goal 1	Goal 2	Goal 3
To attain a public charter school portfolio representing high-quality, diverse educational opportunities for students and their families.	To maintain a high-quality, diverse public charter school portfolio of schools that meets statutory and contractual expectations.	To sustain a high-quality, diverse public charter school portfolio that contributes to Hawai‘i’s public education system.

For each Goal, the Commission determined key strategies to effectuate each of its goals. Annually the Commission has and will continue to create milestones and actions to implement each strategy and in turn achieve its goals.

With its newly revised strategic plan, the Commission has been able to refocus its work on the core work articulated in its mission and vision and the three goals to achieve them.

The Commission's work during the school year 2021-2022 is captured below as described by the specific strategies and the resulting action/document.

Goal 1: To attain a public charter school portfolio representing high-quality, diverse educational opportunities for students and their families.

Strategy 1.1 **If we** clearly define and communicate “high-quality public charter schools” and “diverse education options” with related expectations and priorities, **then** applicants will apply to open high-quality public charter schools and add to the portfolio of diverse educational options and existing public charter schools will work to provide high-quality schools, **and as a result** the public charter school portfolio authorized by the Commission will represent high-quality, diverse educational opportunities for students and their families.

→ **Milestone: 1.1.1 - By the end of SY 2021-2022, SPCSC has defined “high-quality” school. (2021 - 2022)**

Milestone met: The Commission has researched and compiled a draft definition of high-quality school.

→ **Milestone: 1.1.2 - By the end of SY 2021-2022, SPCSC has defined “diverse educational options.” (2021 - 2022)**

Milestone met: The Commission has compiled and identified the educational options in its current portfolio of schools.

Strategy 1.2 **If we** review the findings from Goal 3 and assess those findings against our initial definition of “high-quality” and “diverse educational options” and refine our definitions as needed **then** applicants will apply to open high-quality public charter schools and add to the portfolio of diverse educational options and existing public charter schools will work to provide high-quality schools **and as a result** the Commission will represent higher quality and more diverse educational opportunities for students and their families.

← **Milestone 1.1.3 - By the end of SY 2021-2022, SPCSC has communicated the definitions to potential applicants and existing public charter schools. (2021-2022)**

Milestone moved: The completion of this Milestone was moved to the 2022-2023 school year as the Commission was not able to complete it as planned.

Goal 2: To maintain a high-quality, diverse public charter school portfolio of schools that meets statutory and contractual expectations.

Strategy 2.1 If we create an efficient and accurate data collection and evaluation system to determine if each public charter school is meeting its statutory and contractual obligations, then the Commission will be able to make informed comprehensive evaluations of public charter school performance, and as a result, the Commission strengthens its portfolio.

→ **Milestone: 2.1.1 - By the end of SY 2021-2022, SPCSC has designed a data collection and evaluation system that is efficient and accurate. (2021 - 2022)**

Milestone met: The Commission has constructed an Authorizing Scale that inventories all of the success criteria for operating a high quality public charter school in Hawai'i.

Strategy 2.2 If we create a decision-making framework, then corrective action plans, renewal, and revocation will be data-informed and handled consistently, and as a result, the Commission strengthens its portfolio.

→ **Milestone: 2.2.1 - By the end of SY 2021-2022, SPCSC has designed a decision-making framework. (2021 - 2022)**

Milestone met: The Commission has designed a decision-making framework to guide it's authorizing work and decisions.

Strategy 2.3 If we review the findings from Goal 3 and assess those findings against our data collection and evaluation system and our decision-making framework, and make the necessary changes to refine the systems and framework then the Commission will utilize the improved data collection and evaluation system and decision-making framework and as a result, the Commission strengthens its portfolio.

→ **This Strategy will be implemented in the 2022-2023 school year once the Authorizing Scale is applied and the decision-making framework adopted and implemented.**

Goal 3: To sustain a high-quality, diverse public charter school portfolio that contributes to Hawai'i's public education system.

Strategy 3.1 If we implement a data-informed inquiry process to show a high-quality public charter school portfolio, then high-quality schools, models, and practices will be identified and as a result the Commission will be able to share those high-quality schools, models, and practices throughout Hawai'i.

→ **Milestone: 3.1.1 - By the end of SY 2021-2022, SPCSC has designed or selected a data-informed inquiry system. (2021-2022)**

Milestone met: The Commission has identified and implemented the Spiral Inquiry process as a system to engage in a data-informed process for its work.

Strategy 3.2 If we build an effective communication system, then the Commission will share high-quality schools, models, and practices throughout Hawai'i, and as a result the public charter school portfolio will contribute to Hawai'i's public education system.

→ **Milestone: 3.2.1 - SPCSC has designed a Communications system that shares out and informs Stakeholders/Public. (2021-2022)**

Milestone met: The Commission has designed a Communications Plan.

Strategy 3.3. **If we** share high-quality schools, models and practices throughout Hawai‘i, **then** stakeholders can adapt/adopt these models and practices, **and as a result**, the Commission will have contributed to Hawai‘i’s public education system.

→ **Milestone: 3.3.1 - SPCSC has designed a monitoring system on the effectiveness/impact of the Communication. (2021-2022)**

Milestone met: The Commission has designed a Communications Map and formed a Communications Hui.

III. Authorized Charter Schools in School Year 2021-2022

In school year 2021-2022, 37 charter schools were in operation across the state. Hawai‘i Island was home to 14 charter schools and Kaua‘i was home to five charter schools. There was one charter school in operation on the island of Maui and another on Moloka‘i, while 15 charter schools operated on O‘ahu. One charter school operated statewide, one operated on five islands, and another operated on four islands.

Collectively, charter schools enrolled 12,097 students in kindergarten through grade 12, which represents a slight decrease from the previous year’s enrollment count of 12,213. This decrease of about 1.0% is more favorable than the 1.7% decrease in enrollment experienced by the Hawai‘i public school system overall. Charter school students represented 7% of the total public school population of 171,600 students; a figure that has remained stable before the onset of the pandemic and now, through the pandemic.

The 2019-2020 school year was also the first year in which the Commission’s Early Learning Program was a part of the state’s early learning system under the purview of the Executive Office of Early Learning. School Year 2020-2021 was the first year that the program was state-funded and under the authority of the Commission, following the end of the Commission’s federally funded Preschool Development Grant in school year 2018-2019. The 11 participating public charter schools on Hawai‘i Island, Kaua‘i, Moloka‘i, and O‘ahu collectively offered the opportunity for up to 360 three- and four-year-old students to engage in public prekindergarten at no cost. This was a significant milestone for Hawai‘i, as we expanded public prekindergarten to include three-year-olds. These public charter schools were able to enroll 183 prekindergarten students, of which 105, or more than 57%, had no prior preschool experience. Thanks to these schools’ prekindergarten programs, more students are prepared for kindergarten and have the supports in place to begin their educational experiences ready to learn.

The following table provides key information about all 37 charter schools that were authorized to operate in Hawai‘i during the 2021-2022 school year.

Table 1: Charter School Information for School Year 2021-2022

School	Governing Board Chair	School Director	Year Authorized	Grades Served	Total K-12 Enrollment ⁱⁱⁱ	Title 1 Funding? ^{iv}	Authorized Learning Modality
Alaka‘i O Kaua‘i Public Charter School	Nicola Sherrill	David Adams	2016	K-6	172	No	In Person

IV. Early Learning Program

Building upon Hawai‘i’s Early Learning System

The Commission’s Early Learning Program was recognized for meeting nine of the ten high quality standard benchmarks identified by the National Institute for Early Education Research (NIEER) for the 2020-2021 school year. The national ranking for these benchmarks is part of NIEER’s annual State Preschool Yearbook released in April 2022. The ten standards serve as indicators of what’s required to establish a high-quality public preschool program. Nationally, only eleven-percent of children in preschool are in programs meeting nine of the 10 NIEER’s benchmarks for minimum quality. The full 2021 State Preschool Yearbook is available online [here](#)^v.

The federal Preschool Development Grant (PDG) provided significant foundational support to the State of Hawai‘i by building upon its early learning system and increasing access to preschool slots not typically found in rural remote areas, particularly on the neighboring islands of Hawai‘i outside of O‘ahu. PDG allowed public charter schools to begin developing and building upon high-quality prekindergarten programs to contribute to Hawai‘i’s statewide public prekindergarten movement. Tom Hutton, the Commission’s executive director at the time of the PDG proposal development, viewed this as an opportunity for public charter schools. In 2014, together with the Executive Office on Early Learning (EOEL), the Commission developed the initial PDG proposal to include Hawai‘i’s public charter schools.

In the State of Hawai‘i there is no universal preschool or comprehensive, coordinated early learning system. As a result, only about half of Hawai‘i’s children are able to attend preschool. This lack of access due to lack of seats is even more prevalent in rural areas across the state^{vi}. The majority of Hawai‘i’s PDG sites were intentionally placed in areas with limited availability of early learning seats. The PDG sites were strategically selected to address the disparity between the availability of seats and number of children below six years old in a given community. It is clearly evident that there are not enough seats for all children. In most of the communities where PDG sites are located, there are five to eight children per every one seat available.

A tremendous barrier in Hawai'i is not just the lack of access to preschools, but, more importantly, the lack of access to high-quality preschools. In 2014, Hawai'i began its first cohort of public pre-K programs in HDOE elementary schools. The PDG added an additional 18 classrooms, or 360 seats, to the EOEL's 44 classrooms. Most significantly, the PDG has increased preschool access for children living in poverty, particularly in rural areas.

Participation in PDG provided Hawai'i's public education system with an amazing opportunity to expand access to high-quality prekindergarten educational programs for our children and families and to build our infrastructure necessary to support and sustain this critical system. This was particularly important since Hawai'i is not a contiguous state and providing statewide access is challenged by our multi-island geography. This geographic challenge limits access to high-quality prekindergarten programs and services for children and families living outside of O'ahu. Hawai'i's geography is also a barrier that limits access to professional development and higher education coursework for our early learning workforce.

The Commission's Early Learning Program continues to maintain high-quality early learning standards while providing high-quality early learning opportunities to our students in our communities that need them the most. Building off the foundations afforded through the federal grants and investment in communities by the State, the recognition by NIEER of the quality of the Commission's Early Learning Program demonstrates the commitment and perseverance of our public charter schools in educating these younger learners.

Following national trends, one of the areas of challenge was the limited number of qualified teachers, which is exacerbated in rural remote areas, especially on the islands neighboring the island of O'ahu. Charter schools found it difficult to secure and retain qualified teachers; in some instances, charter school teachers were lost to other competing early learning programs. In 2017, the Commission submitted a proposal for additional PDG funding that focused on areas not included in the original PDG grant. In this supplemental proposal, the Commission addressed the need for workforce development, specifically assisting teachers and educational assistants by minimizing the financial burden of college enrollment. The proposal would provide tuition subsidies to help with college coursework that led to a degree in early childhood education and teacher licensure. This program was open to all early childhood providers in the field, and was not limited to educators in charter school. In the first year of this initiative, the Commission assisted 163 individuals with the tuition subsidies. There continues to be a high demand for this type of financial support for the field. This program initiated by the Commission has led to state legislation that sustains these efforts.

Honoring Hawai'i's Two Official Languages Through Public Prekindergarten Opportunities

Participation in PDG also allowed Hawai'i to offer its first public Native Hawaiian culture and language prekindergarten program located in charter schools across the state. This is critically important to continue the efforts to revive and rebuild Hawai'i's indigenous language and culture that was near extinction just a generation ago. This allowed Hawai'i to honor its two official languages - Hawaiian and English - and offer two pathways of learning for preschoolers and their families. Offering these programs at an early age maximizes the learning opportunities aligned to critical brain development, particularly language development, that occurs in early childhood (Yoshikawa et al., 2013).

Expanding Enrollment Opportunities

While PDG increased access for the most at-risk families with incomes at or below 200% of the federal poverty level, many of Hawai‘i’s communities were left under-served. Families above the income guidelines were unable to participate in these high-quality prekindergarten options in charter schools. Unfortunately, due to the strict PDG eligibility criteria, these families could not be considered for enrollment at that time. In addition, the strict eligibility criteria affected students and families that needed special education and associated services.

Through Act 46, Session Law of Hawai‘i 2020, the early learning enrollment slots in charter schools were expanded, allowing children that are three- and four-year-old by July 31 to be eligible, regardless of family income or categorical priority status. Act 46 further ensured that the number and percentage of eligible children with access to high-quality preschool programs in the State would be maintained in the high-need communities that were initially served by PDG. This legislation is also intended to increase access to high quality early learning programs to address Hawai‘i’s child care deserts^{vii}.

Sustainability Outcomes

The Commission proudly and humbly reports that this relationship-building and informational and educational efforts over the course of the four years of the grant paid off. State funding began in School Year 2019-20. In 2019, these efforts resulted in Act 276^{viii}, Hawai‘i State Legislative Sessions Law 2019, which provided four million dollars for program implementation beginning in School Year 2019-20, and placed the charter school prekindergarten program under the administrative authority of the EOEL. In school year 2020-2021, Act 46, Sessions Law of Hawai‘i 2020 and Act 210, Sessions Law of Hawai‘i 2021, moved the administrative authority of the public prekindergarten programs in charter schools to the Commission. The high quality of components as identified in the previous years remained. All children that are three- and four-years old by July 31 are eligible. This is a significant win to all families who have limited access to high-quality early learning programs in their communities.

Sustaining High-Quality Practices through Professional Development and P-3 Efforts

Throughout the various iterations of the program in public charter schools, the professional development component remained a critical throughline to build upon and strengthen high-quality data-driven instructional practices that was informed by the Classroom Assessment Scoring System (CLASS), Early Childhood Environment Rating Scale, Third Edition (ECERS-3), student outcomes data using the formative assessment system, Teaching Strategies Gold, and the instructional coaches’ anecdotal notes. To support this work, emphasis also focused on each schools’ P-3 system^{ix}, particularly with the school leaders to support this high-quality instruction. Annual early learning symposia and professional learning sessions were held for teaching teams and school administrators. These efforts promoted continuity and P-3 alignment to sustain the positive trajectory of its students. These P-3 leadership opportunities targeted horizontal and vertical alignment within and between grade levels. Each school developed an individualized three-year P-3 plan. This plan identified the comprehensive mapping that schools will implement to strengthen or refine their P-3 alignment between grade levels,

the school, and community. Implementation plans also identify steps to ensure the successful transitioning between programs and grade levels.

The Early Learning Program in public charter schools also emphasized system-building. Over the past five years, P-3 (preschool to grade three) alignment efforts were made to ensure that schools built partnerships with providers in their communities to provide a holistic approach for their children and families in which they serve. While there are multiple facets of P-3 alignment, schools requested support in building or refining effective instructional practices to maximize student engagement and learning potentials. This led to the partnership with a consultant and researchers of the Harvard Project Zero Graduate School of Education to build on the instructional practices of our public charter schools, as a system-building approach, to ensure that there are high-quality instructional practices across grade levels.

The Commission, through the PDG supplemental funds, sent a cohort of 20 participants to attend the 2018 Harvard Project Zero (PZ)^x. Each charter school participating in PDG was able to send at least one representative; participants in this group included leaders from both Hawaiian and English language schools. Subsequently, this group continued to meet for collaborative discussions about the relevancy of their schools’ mission and vision with instructional strategies and methodologies that engaged in critical discussion with students which made ‘thinking and learning visible’.

Supporting P-3 Alignment and Effective Instructional Practices through Visible Thinking and Learning

The Commission continued its close collaboration with the Harvard Graduate School of Education Project Zero through a two-year proposal providing intensive in-person and virtual coaching support to interested and committed charter schools. Also multiple conference-style learning opportunities were provided to expand this approach to all interested schools. These efforts resulted in The Hawai‘i Thinking Classroom^{xi} experience. This experience includes a combination of coaching opportunities to support our schools to create Thinking Classrooms along with building capacity to sustain and grow a school-wide culture of thinking and learning across all classrooms.

The intent of bringing charter schools together across the leadership spectrum was to build a consortium or community of practitioners and learners to bring their own experiences of thinking to advance learning and supportive collaboration with one another. The Commission will continue to offer sessions like this, through The Thinking Classroom Hawai‘i project as an investment in our public charter schools in Hawai‘i.

Pivoting High-Quality Early Learning During the COVID-19 Pandemic and the Commitment to Sustaining High-Quality Practices through Professional Development

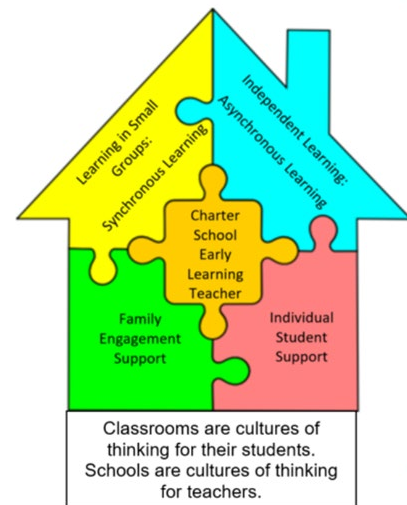

To effectively support early learners in virtual, hybrid, and in-person settings, the Commission’s early learning team attended extensive webinars and learning opportunities by national and local researchers to learn more about developmentally appropriate virtual learning experiences for early learners. This information was shared with teaching teams through shorter but more frequent professional virtual learning sessions.

Teaching teams (teachers and assistants) were included in all professional learning offerings. This model allowed our classroom teams to use a collaborative team approach maximizing the strengths of all teaching partners. Small “hui” groups formats were also offered to maximize adult learning to build consistently upon the previous learning. This allowed teaching teams to expand their thinking and learning to refine their instructional practices. Despite the challenges of COVID-19, they learned how to successfully navigate preschool in both in-person and virtual settings, together with our teaching partners.

COVID-19: Its Impact on Pre-K Student Enrollment

Charter school leaders were provided with the autonomy to reduce enrollment capacity and program hours based on school and/or community data. Despite the unpredictable nature of COVID-19, most charter school leaders were committed to restoring access to their high quality early learning programs. Schools resumed full enrollment and full day hours were restored. In School Year 2021-2022, the total program enrollment was at 87% of capacity, including children that attended for part of the year.

The Commission Early Learning Program found that no matter the instructional approach, there are four critical components that lead to student success, which has been developed into the Kula Framework. Preschoolers learn best in small group synchronous learning experiences, whether it may be in-person or virtual. Though virtual or hybrid learning is atypical for preschoolers, when needed, young children can make friends and can learn from one another in a virtual setting. A critical component is small groups; small groups allow children to focus and listen to one another and engage in deep thoughtful learning conversations, and even make friends through an intimate, small group setting.

Another component is providing an asynchronous library of early learning resources that allows working families to access these resources at a time when it is most convenient for them. Closely tied to this is family engagement support, which recognizes family as the most influential teacher in children’s lives. Ongoing routines provided opportunities for families to simply “talk story” – to build trusting relationships, to inquire about assignments or learning routines, as well as time to share family updates, particularly during the challenging times of COVID-19.

Another equally important component was for teachers to provide individualized support to each student. This practice was the foundation to building a warm, trusting relationship between each student and teacher. Lastly, and arguably the most important component – schools provide a strong foundational culture of thinking for their teachers and students. As Ron Ritchart, researcher with the Harvard Project Zero states, “*If* we support and empower the adults in the school to continually grow,

innovate, question, take risks, reflect, examine, inquire and learn from and with one another, *then* teachers will create those same conditions for the students in their classrooms.”

Supporting the Workforce through College Coursework

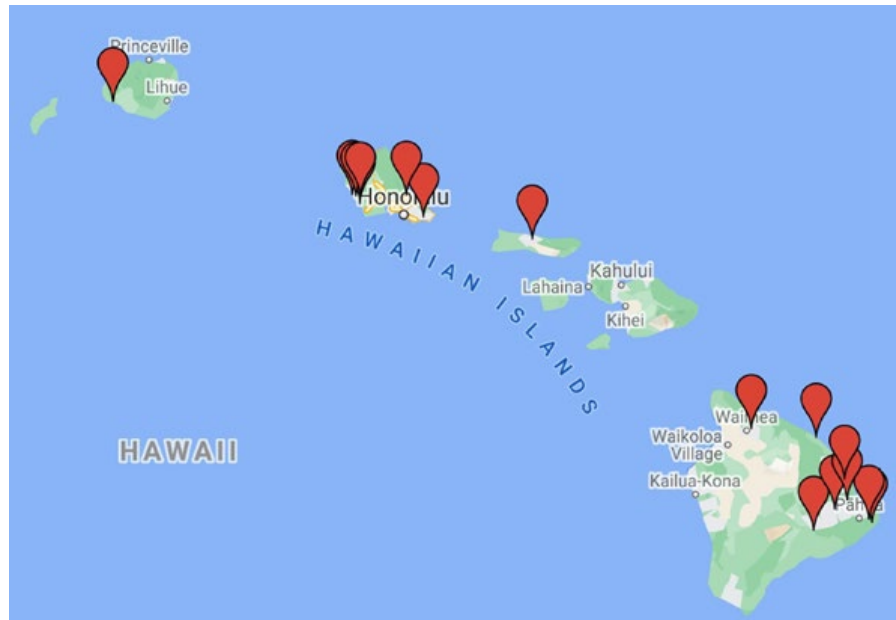

Aligned with high-quality instructional practices, the Commission will continue to focus on workforce development by building instructional practices across the early childhood community. With the remaining PDG funds, tuition support and stipends will continue to be provided to charter school teachers and educational assistants in the Commission Early Learning Program to enroll in higher education and teacher licensure coursework.

To date, through the remaining PDG funds, the Commission has supported ten teachers in obtaining teacher licensures, and 14 other teachers and educational assistants in charter schools to enroll in and complete coursework in early childhood education.

The PDG’s lasting effects have allowed Hawai‘i to continue this great work and has sparked the interest and investment of the state legislature and early learning community to continue this movement to support the learning of our youngest citizens.

Increasing Access to High-Quality Early Learning Programs

In School Year 2021-2022, the Commission’s Early Learning Program operated prekindergarten classrooms across the state of Hawai‘i with programs located on four major Hawaiian Islands. In School Year 2021-2022, there were 17 early learning classrooms in charter schools. The Commission opened the application process to fill the remaining classroom slot. All 18 classroom slots are now assigned. This classroom will begin operation in School Year 2022-2023.

Sources of Funding for Charter School Early Learning Programs

Most charter schools participating in the early learning program reported that only state funding was received. These schools reported that there are no other funding sources. Only one school – Ke Kula ‘o Samuel M. Kamakau, reported that they received a Federal Administration for Native Americans (ANA) and Native Hawaiian Education Program Grant. The funding from these grants is being used to support

professional development for their faculty to refine their Hawaiian language skills, as well as to purchase classroom supplies.

Aggregated Data Reflecting the Quality of the Early Learning Environment

As a quality measurement tool, the Commission Early Learning Program typically uses the Early Childhood Environment Rating Scale, Third Edition. However, due to COVID-19 this instrument was not used since it did not adjust in response to COVID-19 health and safety protocols, therefore no data is available.

The Commission Early Learning Program will resume using this measurement and observation tool in School Year 2022-2023.

As demonstrated by these data, the results for the Commission Early Learning Program for School Year 2021-2022, are mostly equivalent or higher than those of the National Head Start for 2021. This CLASS data helps teachers to reflect on and improve their teacher-child interactions. The early learning coach, in collaboration with teaching teams, are able to analyze the CLASS data and address areas in need of growth and support. This data was used in the coaching cycle to capture powerful interactions and areas of growth. The Commission’s early learning team also uses these data to inform topics for subsequent professional learning sessions.

Charter School Early Learning Student Outcomes Data

The data below reflects the comparison of data, or growth reports comparing the start of School Year 2021-2022, to its completion. The turquoise bars indicate the Fall 2021 students’ outcomes, as measured in the first assessment period. The data indicated in green are the student outcomes in Spring 2022, after the child has experienced nearly a full year of high-quality early learning opportunities.

Social-emotional learning (SEL) is the child’s ability to regulate one’s emotions and behaviors that fosters a climate of care and cooperation. SEL is arguably the most important developmental skills – the ability to get along cooperatively with others, to make friends, and to build positive relationships. SEL well-being has been a concern as children experience the outcomes of the pandemic.

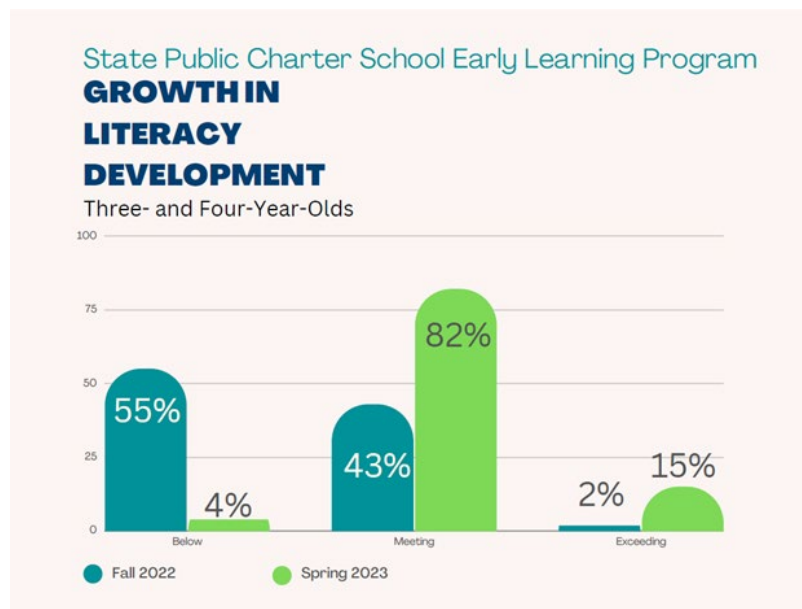

The initial assessment in the fall demonstrated that just under half of the students were below age-level with regard to social emotional development.

In the Spring, after a year of a mix of virtual and in-person learning, and mask-wearing, students still made gains with

97% of the preschoolers meeting or exceeding their age level. This demonstrates that despite the atypical year, our teachers provided high-quality support that resulted in strong social emotional development.

Emergent literacy development, or reading readiness is the foundation for conventional reading. Children are building the skills to prepare them for reading. Literacy development is enhanced when children are read to, engaged in storytelling, when children sing together – these routines help children build larger vocabularies, and is tied closely with language development. Literacy development encourages emergent writing and inventive spelling skills. In early childhood, this is a critical milestone that leads to reading. Reading proficiency by third grade is considered a “make it or break it” benchmark (Shrier, 2013).

In School Year 2021-2022, the growth in literacy development was significant. At the start of the year, more than half of the students were below age level. By the close of the year, nearly all students were meeting or exceeding expectations.

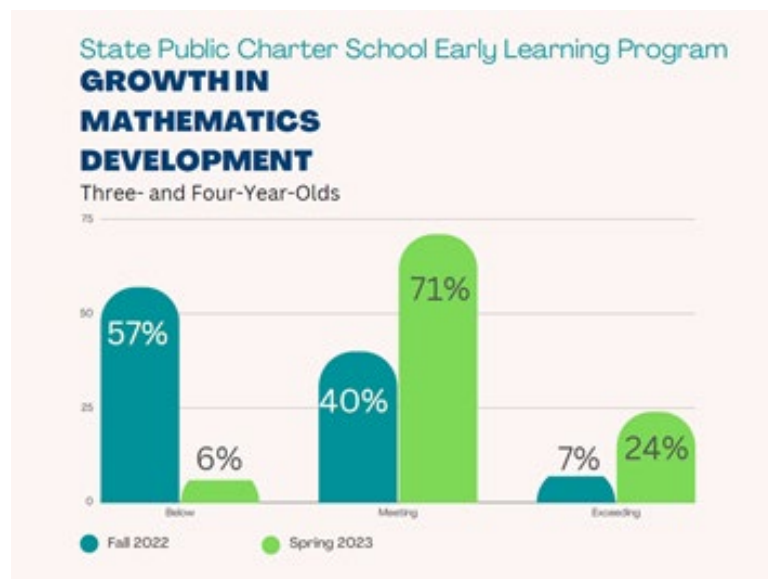

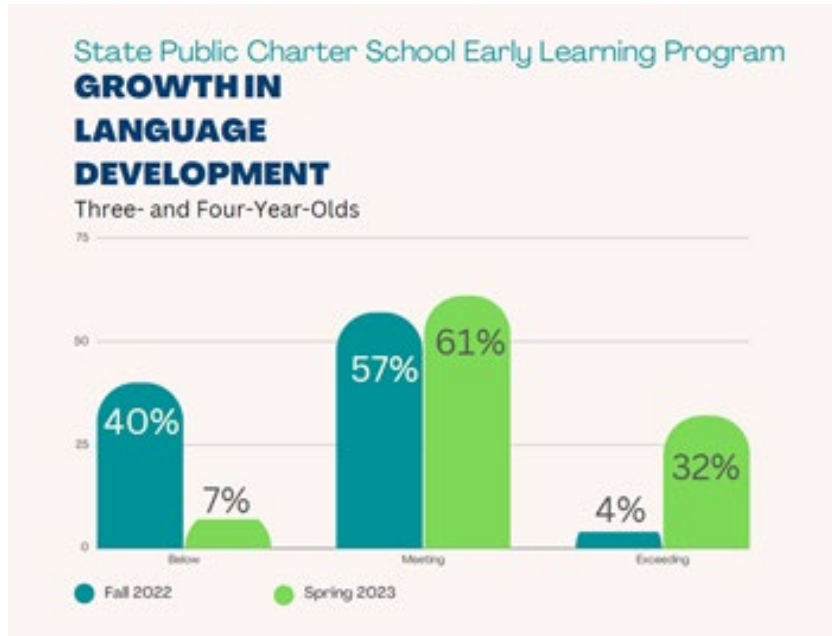

Language development is the young child's ability to understand and express the spoken language. Language development is important because vocabulary development during the preschool years is related to later reading skills and school success in general (Hart & Risley, 2003) "Children who have abundant opportunities to interact with language from infancy to early elementary school are more likely to develop into skilled and fluent readers" (Kelley, S., 2021).

Growth in language development was also significant. At the onset of the school year, nearly half of the incoming students displayed language skills below age. By the close of the year 93% were meeting or exceeding developmental expectations.

Early mathematics is more than just numbers and counting. Early mathematics also includes measurement, geometry, spatial awareness, comparison, sequencing, and patterning. Early mathematics incorporates multiple developmental areas including language, literacy, and SEL, and is a significant predictor of later academic achievement (Duncan, et al, 2007; Claessens & Engel, 2013).

In School Year 2021-2022, in the Commission Early Learning Program, growth in mathematics development also was significant. At the start of the year, nearly two-thirds of the students were demonstrating skills below age level. With targeted professional development for teaching teams that resulted in a strong, focused, playful approach towards student learning. By the end of the school year, 71% of students were meeting and 24% were exceeding developmental levels.

Overall, despite a challenging school year hampered by the impact of COVID-19, with targeted teacher professional development, supported by small groups, Hui learning opportunities, and individualized coaching and mentoring, strong student learning resulted from this strategic approach.

V. School Year 2021-2022: Year in Review

The Commission worked on numerous issues and projects throughout the 2021-2022 school year, acting in its authorizing, oversight, administrative, and advocacy role for the chartering system in Hawai‘i. The major projects and actions taken during the 2020-2021 school year were:

a. Authorizer & Oversight Functions

i. Authorizer Functions

1. Authorizing new public charter schools

The Commission formally restarted the 2020 Applications process after receiving approval from the Department of Budget and Finance to continue to authorize new charter schools, but with the caveat that new funding for any newly authorized charter schools would not be available until Fiscal Budget Year 2024-2025. Accordingly, the Commission received four applications by the February 4, 2022 deadline, and evaluated all for applications. Based on the recommendations from its evaluators and the Applications Committee, the Commission approved two applications and denied two applications.

The two applicants denied by the Commission were: (1) Lima No‘eau Career Academy; and (2) Maui Academy of Arts and Sciences.

The two applicants approved by the Commission were: (1) Kūlia Academy; and (2) Namahana School.

ii. Oversight Functions

1. Approved Charter contract extensions

The Commission approved one-year extensions for twelve schools whose charter contracts end in school year 2021-2022 (five-year contract schools): Ka ‘Umeke Kā‘eo Public Charter School, Kanu o ka ‘Āina New Century Public Charter School, Kanuikapono Public Charter School, Kawaikini New Century Public Charter School, Ke Kula ‘o Nāwahīokalani‘ōpu‘u Iki LPCS, Ke Kula ‘o Samuel M. Kamakau LPCS, Ke Kula Niihau O Kekaha Learning Center, Kihei Charter School, Kualapu‘u School: A Public Conversion Charter,

Kula Aupuni Niihau A Kahelelani Aloha (KANAKA) A New Century Public Charter School, Mālama Honua Public Charter School, and Wai‘alae Elementary Public Charter School, similar to the prior year’s renewal schools, the summative assessment data is not available due to the assessment not being administered, and when administered, unlikely to be useable in the near future due to the continuing effects of COVID-19 on school operations and student learning. The Commission took this action to determine how best to evaluate the school’s performance due to missing data. On May 26, 2022, the Commission approved the charter contract renewal timeline, process, and application for the 23 schools with charter contracts ending on June 30, 2023.

2. Approved amendments to the Admission Policy

The Commission approved the amended Admission Policy for Kona Pacific Public Charter School. As admissions and enrollment are among the key distinguishing features of charter schools in Hawai‘i, the Commission, as provided for in the Charter Contract, is to review and approve any changes to the school’s admission and enrollment policies, first reviewed back in 2015.

3. Approved charter contract amendments

The Commission took action thirteen times to approve or deny charter contract changes for nine schools. Amendment requests ranged from location changes/additions, to additions/changes to the school’s educational program including blended and/or virtual programs.

4. Charter School Interventions

The Commission issued Notices of Concern to the following charter schools for the stated reasons:

Hawai‘i Academy of Arts and Science Public Charter School regarding: (1) liability for leases and zoning issues of various school facilities; and (2) fire inspection issues at certain school facilities and sites.

Kamalani Academy regarding student enrollment discrepancies and starting an unauthorized blended and/or virtual program.

Alaka‘i O Kauai Public Charter School for student enrollment discrepancies and starting an unauthorized blended and/or virtual program.

The Commission also took action to direct staff to conduct an investigation of Kamalani Academy for parent complaints against the school for refusing to release or transfer students to another school along with the student’s records.

5. Charter School Funding

a. The authorizer’s reviewed and verified enrollment count^{xii}

The Commission reviewed and verified student enrollment counts for two schools, Kamalani Academy and Alaka‘i O Kauai Public Charter School due to enrollment discrepancies brought to the Commission’s attention by the Department of Budget and Finance and the Hawai‘i Department of Education.

b. Federal Impact Aid Disbursement Methodology

The Commission approved the 80/20 disbursement methodology for federal impact aid to charter schools and will remain in effect until such time the Commission deems it necessary to revisit the methodology.

b. Administrative Functions

i. Distributed Federal Impact Aid Funds

The Commission continued to distribute Federal Impact Aid funds based on an 80/20 disbursement methodology (80% base funding and 20% per pupil allocation), which was based on the recommendation of the Commission's Administration & Operations Committee and the results of the Federal Impact Aid workgroup. (January 14, 2021) Additionally, the Commission voted to continue this methodology until it deems necessary to revisit the methodology.

c. Advocacy Functions

i. Weekly meetings with charter school leaders and governing board members

Since the COVID-19 emergency began in March 2020, the Commission and its staff continued to meet with all public charter schools weekly to convey information regarding COVID-19, as well as other information relating to other state agencies, as requests and compliance requirements arose. These meetings also included bringing representatives from other state agencies to speak with and answer questions from public charter schools.

ii. Charter School student Access to Health Services and Programs

With the onset of the COVID-19 pandemic the Commission has advocated for its 37 public charter schools to be included in accessing Health Services and Programs that should be available to all public school students. The Department of Health, recognizing that equity and access for public charter schools is important, has generously supported the public charter schools with access to testing programs and also provided foundational funding to work with the Hawai'i Keiki Nurse program to build a public charter school equivalent program for all public charter schools, similar to the program now provided for in the HDOE public schools.

d. Other Commission Action

i. §92-2.5 (b)(1) Hawaii Revised Statute, Permitted Interaction Group - Commission Investigative Committees

The Commission formed six Permitted Interaction Groups under §92-2.5 (b)(1) HRS, to assist the Commission in investigating particular issues that were later reported to the full Commission for its consideration and decision making. The Permitted Interaction Groups formed over the past year included: (1) revising the Commission's Strategic Plan and Budgetary Measures of Effectiveness; (2) to work with the BOE's Evaluation Team tasked with conducting the performance review of the Commission; (3) for the purpose of reviewing and/or updating the Commission's Online Virtual Blended Guidelines; (4) to work and consult with charter schools to study charter school assessment practices

and provide recommendations on the implementation of assessment practices beyond the State Smarter Balanced assessment: 1) under current conditions; and 2) on a long term basis; (5) to review and update the executive director job description and to recommend the timeline and process for the executive director search; and (6) to initiate the first step in the executive director selection process which would be an evaluation of the interim executive director.

VI. Academic, Financial, and Organizational Performance of Charter Schools

The academic performance of all operating public charter schools overseen by the Commission, according to the performance expectations for public charter schools set forth in Hawai‘i Revised Statutes, Chapter 302D, including a comparison of the performance of public charter school students with public school students statewide.

The financial performance of all operating public charter schools overseen by the Commission, according to the performance expectations for public charter schools set forth in Hawai‘i Revised Statutes, Chapter 302D.

a. The Performance Framework

The Commission’s accountability system, known as the Performance Framework, is comprised of three content-specific frameworks: the Academic Performance Framework (APF), the Financial Performance Framework (FPF), and the Organizational Performance Framework (OPF). The Commission uses the frameworks to evaluate the performance of each charter school in its portfolio.

b. Academic Performance

The HDOE annually evaluates all public schools statewide through its Strive HI Performance System. The Commission, as authorizer of Hawai‘i’s charter schools, evaluates the academic performance of each school annually through its APF. The APF incorporates data from many of the Strive HI measures, but allows for additional flexibility — such as offering Hawaiian immersion charter schools the option to request the exclusion of English assessment results for grade levels taught primarily in Hawaiian — and includes school-selected and school-developed measures that provide a more comprehensive analysis of charter schools’ academic performance, taking into account the unique features and innovative practices of charter schools.

i. Academic Performance Framework

The Commission annually evaluates the academic performance of all public charter schools in Hawai‘i using its APF, the Commission’s academic accountability system. The APF in the charter contracts provide the structure for reporting student progress relevant to the unique communities each school serves. Initially, “school specific measures” allowed schools to report on the distinct ways that students learned and were thus measured. The early contracts placed Strive HI data at the forefront of the APF, with optional School- Specific Measures (SSMs) developed and agreed upon by the charter school and the Commission. The SSMs were designed with multiple rating plans that provided varied values for the optional SSMs.

Contract 3.0 (implemented in school year 2017-2018) introduced Value Added Measures (VAM). The VAM attempted to “help quantify the unique approaches/characteristics/initiatives that defined each charter school, but certain components of the VAM structure interfered with realizing the promise of that vision. Also, some schools expressed confusion at the term ‘Value Added Measure’ due to its association with teacher evaluation measures.” (2019, Harley and Weeldryer) Further, schools expressed they were unable to explore indicators or assessment tools that aligned to their mission.

Presently, Contract 4.0 specifies a Mission Aligned Initiative (MAI) which is built on the foundational premise that each school’s mission serves the distinct elements of the community within which the school resides. The MAI (Indicator 1; required), along with the optional opportunity to report on site-specific measures (Indicator 4; optional) afford schools a more relevant method of appraisal that balances the Strive HI measures which historically have not presented an accurate and relevant profile of charter schools’ unique mission focus. Inherent in the implementation of the MAI is the requisite task of developing assessment tools for the MAI that will yield relevant and accurate data that informs the continued improvement of teaching and learning.

Student Academic Outcomes

This section of the APF typically consists of a variety of measures that focus on a fairly standard set of student outcomes — both those that are required by Hawai‘i Revised Statutes and drawn from Strive HI, and other optional measures of a school’s choosing — and corresponding performance targets for each year of the contract, which are developed by charter schools in consultation with Commission staff.

Beginning with SY 2020-2021, HIDOE resumed standardized testing in a modified manner. Thus the results were not consistently valid across all student populations. During the 2021-2022 school year, HIDOE returned to the full administration of standardized testing.

Charter school performance measures are reported in Appendix A, individual school performance summaries, and Appendix B, Charter School Academic Performance and Enrollment Data.

The Commission’s APF uses state accountability data from four primary areas within Strive HI: Student achievement (as measured by proficiency on the statewide assessments): the achievement gap between high needs students and non-high needs students, student growth, and college and career readiness.

Kaipuni (Hawaiian Language Immersion/Medium) Charter Schools and Kaipuni Assessment of Educational Outcomes (KĀ‘EO)

Kaiapuni schools, or Hawaiian language immersion/medium schools, deliver instruction in ‘Ōlelo Hawai‘i (the Hawaiian language) — which may include Olelo Niihau or Olelo Kanaka (Niihau dialect) — and, typically, instruction is entirely in ‘Ōlelo Hawai‘i until fifth grade, at which point English is introduced at an increasing rate.

Six charter schools are Kaiapuni schools:

1. Ka ‘Umeke Kā‘eo Public Charter School
2. Kawaikini New Century Public Charter School
3. Ke Kula Niihau O Kekaha Learning Center
4. Ke Kula ‘o Nāwahīokalani‘ōpu‘u Iki Lab Public Charter School
5. Ke Kula ‘o Samuel M. Kamakau Laboratory Public Charter School
6. Kualapu‘u Public Conversion Charter School

Of these schools, one — Kualapu‘u Public Conversion Charter School — is an English medium school that operates a Hawaiian immersion program. Another — Ke Kula Niihau O Kekaha Learning Center — has adopted a heritage, two-way bilingual immersion program, also known as a dual language immersion, in which Native Niihau speakers and native English speakers maintain and develop their first language while acquiring native-like communication and literacy skills in a second language. Academic content is taught and assessed in two languages over an extended period of time.

Most Kaiapuni schools and programs administer the Kaiapuni Assessment of Educational Outcomes (KĀ‘EO) in language arts, math, and science to students in elementary and middle school grade levels on an annual basis.

Note that Kula Aupuni Niihau A Kahelelani Aloha A New Century Public Charter School (KANAKA), also delivers some instruction in Olelo Kanaka, however, KANAKA **is not considered a Kaiapuni school** and, therefore, does not participate in KĀ‘EO.

Value Added Measures

The Value Added Measures (VAM) capture the work that schools are doing to add value to their school community or the education system at large. Due to the impacts of COVID-19, many schools did not report on the status of the value added measure for school years 2020-2021 and 2021-2022.

Mission Aligned Initiative (MAI)

The school implements and measures mission-focused educational goal(s) through documentation and a written narrative submitted to the Commission. Schools self-report by providing the mission statement, educational goals, rubrics, and disaggregated data as documentation on how the school has developed and implemented its model based on its mission statement.

Mission Alignment to Student Success School process includes:

- Basic: Articulation of school mission/vision
- Practiced: Articulation of units/ lessons (curriculum, instruction, and assessment) that target an aspect of the school mission/vision

- **Ingrained:** Articulation of a yearlong curriculum with units/lessons and assessments that target an aspect of the school mission/vision

Comparative Performance (Supplemental)

Provides an opportunity for a public charter school to compare its Absolute Achievement performance with other public schools by Complex, Complex Area, or Charter Schools.

School Reported Data on Site-Relevant Diagnostics (Supplemental)

Depicts student achievement/growth at critical points throughout the school year utilizing site-relevant diagnostics. School Reported Data could include:

- **Adaptive Diagnostic Tool** - a type of computer adaptive test that matches the difficulty of the test questions to the ability of the student
- **Local-specific Diagnostic Tool** - school developed tool/task that utilizes locally developed norms to assess student growth
- **Universal Screener** - a brief assessment typically administered three times per year (fall, winter, and spring)

The following table outlines the APF measures by Charter Contract iteration in which a charter school's academic performance is evaluated for purposes of annual monitoring, potential interventions and plans for improvement, and renewal and revocation decisions.

Charter Contract 3.0 (first implemented SY 17-18)	Charter Contract 4.0 (first implemented SY 21-22)
<p>The Academic Performance Framework consists of two sections: Student Academic Outcomes and Value Added.</p> <p>1. Student Academic Outcomes This section contains the measures that are required by Section 302D-16, HRS including:</p> <p><u>a) Student academic proficiency:</u> schools will set a target for the percentage of students who score at the levels of proficient or above on the statewide assessments in English Language Arts or Hawaiian Language Arts and math.</p> <p><u>b) Student academic growth:</u> schools will set a target for growth based on statewide assessment results, as measured under the state ESSA plan for federal reporting and accountability or revised state accountability system (i.e., Strive HI).</p>	<p>The APF, is comprised of four (4) indicators, two mandatory indicators and two supplemental indicators as follows:</p> <p>(a). Mission Aligned Initiative (MAI) (Mandatory) - measures mission-focused educational goal(s) through documentation and a written narrative to be submitted to the Commission.</p> <p>(b). Standardized Assessments (Mandatory HRS §302D-16)</p> <p><u>i. Absolute Achievement</u> - shows how students have performed at a single point in time (a snapshot) on particular assessments (including but not limited to state standardized assessments)</p> <p><u>ii. Growth - Median SGP</u> - examines how individual students have improved over time on a particular assessment (including but not limited to state standardized assessments).</p>

Charter Contract 3.0 (first implemented SY 17-18)	Charter Contract 4.0 (first implemented SY 21-22)
<p>c) <u>Achievement gaps in proficiency between major subgroups</u>: schools will set a target for high-needs proficiency rates in order to close the achievement gap between the non-high needs and high needs student subgroups.</p> <p>d) <u>College and career readiness</u>: schools will set a target for each college and career readiness indicator for each grade division served.</p> <ul style="list-style-type: none"> a. For high schools and schools with a high school division, the readiness measures must include the four-year graduation rate. In addition, schools may also add the five-year graduation and/or college-going rates. b. For middle schools and schools with middle school divisions, schools may choose any measure that is consistent with the middle school college and career readiness measures used or captured by the DOE such as chronic absenteeism or average daily attendance, ACT Aspire exam, eighth graders taking and passing Algebra 1, or the PSAT. c. For elementary divisions, schools will set a target for attendance and may choose between chronic absenteeism, or average daily attendance rates as defined above. <p>For each measure, schools will work with staff to set annual target ranges, and interim targets if required by the school’s charter contact. These ranges will be developed by analyzing a school’s historical data, as well as comparative data for each school’s geographic complex and all schools statewide.</p> <p>Optional other measures: optional measures are not required by Section 302D-16, HRS. They must focus on valid and reliable student outcome data and may be school-developed or drawn from existing data sources such as DOE data or school-selected formative assessment. When selecting</p>	<p>iii. <u>Achievement Gaps</u> - difference in LA and Math proficiency rates for high needs (economically disadvantaged, special needs, English Learners) and non-high needs students</p> <p>iv. <u>Post-Secondary Readiness and Success</u> - percentage of students reading at, or near grade level, and/or promotion rate, depending on grade level.</p> <p>v. <u>Chronic Absenteeism</u> - based on the number of students absent (excused/unexcused) for fifteen (15) or more days during the Full School Year (“FSY”) period. For secondary school students, a student is considered absent if he/she did not attend more than fifty-percent (50%) of scheduled classes that day.</p> <p>vi. <u>School Climate</u> - percentage of students who feel positive about their school (Data from State’s accountability system).</p> <p>(c). Comparative Performance (Supplemental) - provides an opportunity for a public charter school to compare its performance with other public schools.</p> <p>(d). School Reported Data on Site-Relevant Diagnostics (Supplemental)- depicts student achievement/growth at critical points throughout the school year utilizing site-relevant diagnostics.</p>

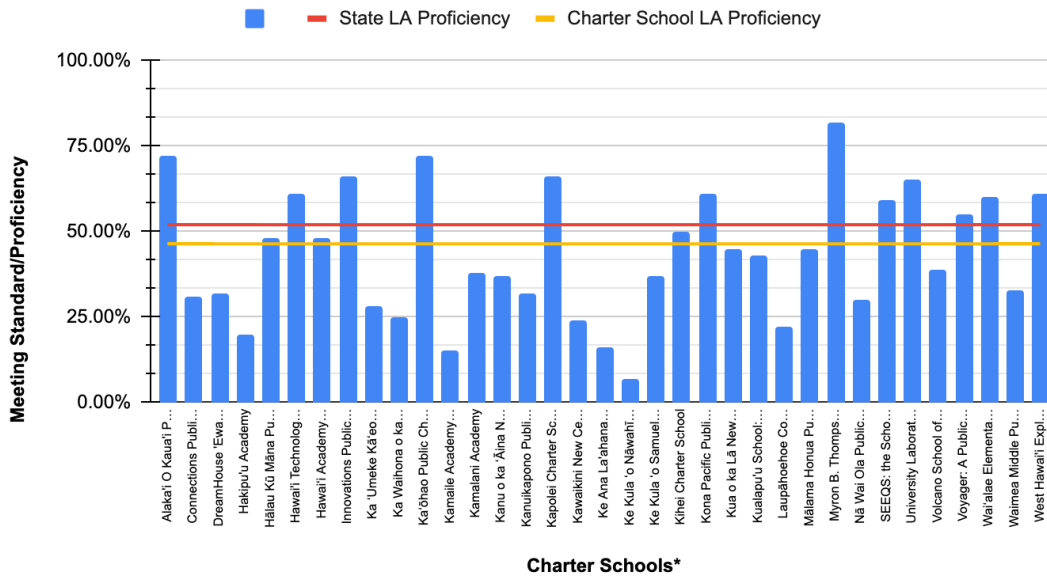

Charter Contract 3.0 (first implemented SY 17-18)	Charter Contract 4.0 (first implemented SY 21-22)
<p>measures within these categories, the availability and reliability of the data are important, and sometimes limiting, factors. For this reason, the Academic Performance Framework measures pull from Strive HI data and other data collected by the DOE for all public schools statewide.</p> <p>2. Value Added</p> <p>The second section of the Academic Performance Framework captures the work that schools are doing to add value to their school community or the education system at large. Each school must create a minimum of one Value Added goal. This section can measure the implementation of systems designed to increase program effectiveness, innovative practices and those that are aligned to the school’s mission and vision. These goals will be specifically articulated and measurable and will include implementation timelines.</p>	

ii. Overall Evaluation of Academic Performance

Overall, 22% of charter schools (eight schools) met/exceeded State and Charter proficiency averages in all three areas tested: Language Arts, Math, and Science. Further, 24% of charter schools met/exceeded both State and Charter averages for Math; 35% of charter schools met/exceeded both State and Charter averages for Language Arts; and, 38% of charter schools met/exceeded both State and Charter averages for Science.

Charter school Strive HI Language Arts (LA), Math, and Science proficiency performance is demonstrated in the chart below:

SY 21-22 Strive HI: Charter School Language Arts (LA) Proficiency

*Charter Schools with suppressed proficiency data were not included in the chart above: Ke Kula Niihau O Kekaha Learning Center and Kula Aupuni Niihau A Kahelelani Alloha (KANAKA) A New Century Public Charter School

SY 21-22 Strive HI: Charter School Math Proficiency

*Charter School with suppressed proficiency data were not included in the chart above: Hakipu'u Academy, Ke Ana La'ahana Public Charter School, and Ke Kula Niihau O Kekaha Learning Center

SY 21-22 Strive HI: Charter School Science Proficiency

*Charter School(s) with suppressed proficiency data were not included in the chart above: Hakipu'u Academy, Ke Kula Niihau O Kekaha Learning Center and Kula Aupuni Niihau A Kahelelani Alloha (KANAKA) A New Century Public Charter School

c. Financial Performance

i. Financial Performance Framework (FPF)

The FPF incorporated a risk-based assessment to measure financial performance for Hawai'i charter schools. Utilizing this method of assessment, the Commission was better able to assess the potential risk of fiscal insolvency for each school using a balanced weighted formula that incorporated six fiscal measures.

ii. Overall Evaluation of Financial Performance

The results of the risk assessment show a measure of fiscal stability within the charter school system as no charter schools received a "High" or "Significant" risk rating in school year 2021-2022. Fifteen (15) charters were assessed a risk of "Low", the optimal measure of risk for this assessment. Another nineteen (19) schools received a risk rating of "Acceptable" and appear to have a solid fiscal foundation for sustainability. Three (3) schools received a risk rating of "Moderate" for the school year 2021-22.

d. Organizational Performance

i. Organizational Performance Framework (OPF)

The Performance Framework serves as the means by which the Commission addresses one of an authorizer's core responsibilities: protecting the public interest. The OPF articulates and reminds charter schools that they are to meet all applicable federal, state, local laws and regulations, as well as contractual requirements at all times for the duration of the Charter Contract.

ii. Overall Evaluation of Organizational Performance

Guided by Performance indicators, measures, and metrics, the Commission is able to evaluate and assess the performance of each Public Charter School under the framework by:

1. Reviewing a Public Charter School's compliance with federal, state, local laws, and regulations;
2. Conducting at least one school site visit during the term of the Charter Contract;
3. Requiring submission of documentation verifying compliance through the Kuleana Portal, the Commission's online compliance management system; and
4. Reporting annually on the School's fulfillment of compliance requirements included within this framework;
5. Reviewing the Charter Contract for evidence of compliance with contractual requirements.

When a Performance evaluation indicates a Charter School is unable to comply with statutory and contractual requirements, the school becomes subject to the Intervention Protocol of the Charter Contract which may result in corrective action up to and including the revocation of the Charter Contract.

Through performance evaluation and compliance monitoring, for the 2021 - 2022 school year, the Organizational Performance Framework monitored the following required submissions through the Kuleana Portal to verify compliance by each Charter School:

1. List of Key School Employees/Contacts
2. Uniform Information Practices Act: Annual Log and Semi-Annual Summary Log
3. Governing Board Membership Roster
4. Student Admission Packet Material for Upcoming Student Application Period
5. Annual Fire Inspection Report
6. Assurance of Compliance Statement (only applicable to Charter School under Contract 3.0)
7. Annual Budget
8. Disaggregated Data (Only for SPCSC Online Virtual and Blended Learning Programs)
9. Quarterly Financial Statements FY 2021 - 2022
10. Annual Financial Audit FY 2021 - 2022
11. School Year Calendar
12. Student Enrollment Projections SY 2022 - 2023

VII. Portfolio Status

The status of the authorizer's public charter school portfolio, identifying all public charter schools and applicants in each of the following categories: approved (but not yet open), approved (but withdrawn), not approved, operating, renewed, transferred, revoked, not renewed, or voluntarily closed.

When the Commission first began operating in 2012, all charter schools were given a one-year contract for the 2013-2014 school year. This gave the Commission an opportunity to make any necessary revisions to the Charter Contract and Performance Framework before adopting the first multi-year Charter Contracts, whose terms were from school years 2014-2015 through 2016-2017.

All schools whose charter contracts expired on June 30, 2017, underwent the Commission's contract renewal process during the school year 2017-2018 and all were awarded new contracts varying in length from two to five years. The duration of each of the contracts were determined based on each charter school's performance during the previous contract, which had a three-year term from July 1, 2014, to June 30, 2017. Under the terms of the contracts that expired on June 30, 2017, a charter school that achieved high levels of performance under the Performance Framework was eligible for an automatic two-year extension and was not required to undergo the Commission's contract renewal process. Newly authorized charter schools currently receive a five-year contract.

There are presently 37 public charter schools operating in the State of Hawai'i. At the end of the 2020-2021 school year, the Commission and 13 schools executed a new five 5-year contract, which included a new Performance Framework. Of the remaining 24 schools in the portfolio, 23 schools have Charter Contracts ending on June 30, 2023 and will be undergoing the renewal process. The one remaining school's Charter Contract ends on June 30, 2024.

Two additional Charter School Applicants were approved during the 2020 Request For Proposals (RFP), carried out in 2022 due to delays caused by the pandemic.

**Table 2: Status of Charter Schools and Applicants in State Public Charter School Commission's Portfolio
School Year 2021-2022**

Kūlia Academy		Approved applicant but not open
Namahana School		Approved applicant but not open
Lima No‘eau Career Academy		Not approved applicant
Maui Academy of Arts and Sciences		Not approved applicant

VIII. Authorizing Functions Provided to Charter Schools

The authorizing functions provided by the authorizer to the public charter schools under its purview, including the authorizer's operating costs and expenses detailed in annual audited financial statements that conform with generally accepted accounting principles.

a. Authorizing Functions

Pursuant to statute, HRS, Section 302D-5(a), authorizers are charged with a number of essential powers and duties, specifically:

- Soliciting and evaluating charter applications;
- Approving quality charter applications that meet identified educational needs and promoting a diversity of educational choices;
- Declining to approve weak or inadequate charter applications;
- Negotiating and executing sound Charter Contracts with each approved applicant and with existing public charter schools;
- In accordance with Charter Contract terms, monitoring the performance and legal compliance of public charter schools; and
- Determining whether each Charter Contract merits renewal, nonrenewal, or revocation.

On October 28, 2021, due to the impacts of the COVID-19 disruptions to learning, the Commission extended the charter school contracts by one year for the 12 schools whose contracts were ending on June 30, 2022 to allow the Commission more time to work and consult with charter schools to study charter school assessment practices and provide recommendations on the implementation of assessment practices beyond the State Smarter Balanced assessment: 1) under current conditions; and 2) on a long term basis.

On June 10, 2021, the Commission entered into new five-year charter contracts with 13 charter schools that included a new Performance Framework. This new charter contract is referred to as Contract 4.0.

On November 19, 2016, the Commission approved a renewal process, criteria, application, and guidance, for schools that have a charter contract. This renewal process resulted in charter schools entering into the Commission's first multi-year contract to begin on July 1, 2017. The renewal process was completed well into the second contract term due to the fact that the Charter Contract was negotiated at the end of the 2013-2014 school year and there was not a renewal of the previous one-year Charter Contract.

During the 2013-2014 school year, the Commission went through a charter school application cycle during which it solicited and evaluated charter applications, approved one quality charter application, and declined weaker charter applications. It also began monitoring charter schools during the 2013-2014 school year for organizational and financial compliance. Academic monitoring was not in place during the 2013-2014 school year because the Academic Performance Framework was not approved until the end of the 2013-2014 school year. The Commission continues to solicit and evaluate charter applications and monitor charter schools to ensure compliance with the Academic, Organizational, and Financial performance frameworks.

The Commission, as an authorizer, is also statutorily charged with:

- Acting as the point of contact between the DOE and charter schools;
- Being responsible for and ensuring the compliance of a charter school with all applicable state and federal laws, including reporting requirements;
- Being responsible for the receipt of applicable federal funds from DOE and the distribution of funds to the charter schools; and
- Being responsible for the receipt and distribution of per-pupil funding from the State Department of Budget and Finance.

In addition to fulfilling its statutorily charged duties, the Commission also provides administrative assistance to the charter schools including: human resources support for schools that do not purchase payroll and human resources services from DOE; federal program support; serving as the point of contact and conduit of data and information between Charter Schools and other State agencies (such as the Department of Human Resources Development, the Hawai'i Employees' Retirement System, and the Hawai'i Employer-Union Health Benefits Trust Fund); serving as the point of contact for charter school sector-wide issues relating to unions; and relaying information to all public charter schools on required accountability data information systems, among other functions.

With the advent of the COVID-19 pandemic additional areas of support for public charter schools became more apparent especially in access to Health Programs and Services as well as Safety Programs and Training available to Department public schools but not to public charter schools. The Commission, in its liaison function, as well as in advocacy for the charter system, has been working to connect our schools with the requisite state departments and/or agencies, so that all public school students have equitable access for these vital foundational services and programs.

The Commission continues to evaluate these functions with an eye towards determining whether and to what degree any of these functions should be distinct from the Commission's role as authorizer. The Commission has continued to provide many non-authorizing functions to the charter schools, such as payroll, federal funding pass-through, and human resources support so that charter schools could continue to operate seamlessly without additional costs. The Commission continues to explore ways to ensure that schools or other third parties can assume some of these necessary non-authorizer functions.

b. Authorizer’s Operating Costs and Expenses

Total operating costs and expenses cover a range of services, as required by statute, to support the Commission in its role as the only authorizer in the State of Hawai‘i. For fiscal year 2021-2022, the Hawai‘i State Legislature appropriated about \$1.7 million in general funds to the Commission.

During fiscal year 2021-2022, the Commission’s operating costs, primarily supported with general funds and federal funds provided through a Memorandum of Understanding with the Hawai‘i Department of Education, totaled approximately \$2.3 million.

The Commission’s audit report was prepared by CW and Associates, Certified Public Accountants, and is attached as Appendix E.

c. Authorizer Services Purchased by Charter Schools

The services purchased from the authorizer by the public charter schools under its purview.

No services were purchased from the Commission by charter schools in the 2021-2022 fiscal year.

d. Federal Funds

A line-item breakdown of the federal funds received by the department and distributed by the authorizer to public charter schools under its control. Any concerns regarding equity and recommendations to improve access to and distribution of federal funds to public charter schools.

Since July 1, 2013, the Commission staff has been responsible for receiving and distributing federal funds to charter schools. The Commission serves as a pass through entity allocating federal funds from the DOE to charter schools. The following table sets forth the federal funds that the Commission disbursed to the schools for the 2021-2022 fiscal year.

Table 3 Federal Fund Allocations and Expenditures for Charter Schools

Table 3: Federal Fund Allocations and Expenditures for Charter Schools			
Federal Program ^{xiv}	Purpose of Funding and Basis for Allocation	Federal Funds Allocated in FY 2021-2022	Amount Provided to Charter Schools in FY 2021-2022
Migrant Education State Grant Program	To support education programs that address the needs of migratory children. Distribution made based on a percentage formula incorporating at-risk factors and number of migrant students at each school.	\$49,771	\$49,771

Table 3: Federal Fund Allocations and Expenditures for Charter Schools

	To provide financial assistance to local education agencies affected by Federal presence. Distribution based on proportion of total public school enrollment.	\$3,264,946	\$3,264,946
	To improve students' academic achievement by increasing the capacity of states, local educational agencies (LEAs), school, and local communities to provide students with access to a well-rounded education; improve school conditions for student learning; and improve the use of technology in order to improve the academic achievement and digital literacy of all students.	\$386,000	\$386,000
	To provide financial assistance to local education agencies affected by military presence. Distribution based on proportion of total public school enrollment.	\$442,823	\$442,823
	To support all homeless children so that they have equal access to free and appropriate public education. Funds support staffing for personnel that provide technical assistance to various groups. Distribution is based on the cost of a homeless liaison position and related expenses.	\$18,875	_ ^{xv}
	To help disadvantaged students enrolled in schools with the highest concentrations of poverty to meet the same high standards expected of all students. Distribution made to only schools with 47.2% or more students receiving free or reduced-price meals. Distribution to these schools based on Title 1 formula using number of students eligible for free or reduced-price meals, multiplied by the per-pupil funding amount for the school's county.	\$3,484,791	\$3,080,659

Table 3: Federal Fund Allocations and Expenditures for Charter Schools

Federal Program ^{xiv}	Purpose of Funding and Basis for Allocation	Federal Funds Allocated in FY 2021-2022	Amount Provided to Charter Schools in FY 2021-2022
Improving Teacher Quality State Grants- Title II, Part A	To improve teacher and principal quality and increase the number of highly qualified teachers in the classroom. Distribution based on an approved Title 2A Highly Qualified Plan.	\$198,242	\$198,242
English Language Acquisition State Grants	To supplement efforts to improve the education of limited English proficient students. Distribution based on the number of English language learners enrolled in schools after submission and approval of Title 3 written plans.	\$6,000	_xvi
Special Education Grants to State	To provide financial assistance to state education agencies to assist in the provision of special education services as determined by IDEA and ESSA.	\$60,612	\$60,612
Migrant Education Consortium Incentive Grants	To provide financial incentives to state education agencies to improve the interstate or intrastate coordination of migrant education programs by addressing key needs of migratory children who have their education interrupted.	\$1,800	\$1,800
Nita M. Lowey 21st Century Community Learning Centers	To support the creation of community learning centers that provide academic enrichment opportunities during non-school hours for children.	\$5,297	\$5,297
COVID-19: American Rescue Plan Elementary and Secondary School Emergency Relief Fund	To support schools in safely reopening and sustaining safe operations of schools while meeting the academic, social, emotional, and mental health needs of students resulting from the coronavirus pandemic.	\$2,379,298	\$2,379,298
UPLINK Middle School Program	To provide a middle school after-school program for grades 6-8 that services and proactively prevents middle school students from engaging in risky behaviors during the late afternoons when schools are not in session.	\$24,997	\$24,997

Table 3: Federal Fund Allocations and Expenditures for Charter Schools

Federal Program ^{xiv}	Purpose of Funding and Basis for Allocation	Federal Funds Allocated in FY 2021-2022	Amount Provided to Charter Schools in FY 2021-2022
TOTAL		\$10,323,452	\$9,894,445

e. Equity Concerns and Access and Distribution Recommendations

The Commission continues to collaborate and engage with multiple state agencies, such as the State Departments of Budget and Finance, Accounting and General Services, and HIDOE, on overcoming the inefficiencies and difficulties found by both the Commission and charter schools within the various components of the overall state accounting system and structure.

This past year, the Commission has appreciated the efforts of the HIDOE in ensuring that Commission staff was included in all applicable training sessions related to the roll-out of the HIDOE's updated financial management system. This updated system has resulted in less cumbersome processes and procedures for the receipt and distribution of funds to charter schools that are provided by the HIDOE.

The Commission also continues to collaborate with the HIDOE on disbursement and monitoring of funding provided by the federal government through the American Rescue Plan Elementary and Secondary School Emergency Relief (ESSER III- ARP) Fund. Commission staff has worked closely with HIDOE staff on administering the reimbursement process implemented to actively monitor and account for the use of ESSER III-ARP funds.

Additionally, equity in access to Health Services and Programs currently available to HIDOE school students but not fully to public charter school students is an issue that must be further examined and addressed. The Commission is deeply grateful to the Department of Health for proactively working to ensure that public charter schools are included in the provision of health services and programs made available to department public school students. Access to Safety Programs and training continue to be an area that the Commission is working on to ensure that our public charter schools have access to these necessary and foundational services. This is an area of need in terms of awareness and support for funding.

IX. Information requested by the Board of Education

The Board of Education requested a summary of any actions that the Commission took during the year to address the findings in the Board’s performance evaluation report of the Commission through implementation of the Commission’s continuous improvement plans.

Throughout 2021-2022, the Commission and its staff worked to implement the Revised Strategic Plan. The Commission has already addressed the following Performance Measures:

Performance Measure	Narrative description or list of actions identifying the findings addressed
A.1: Authorizer Mission Does the authorizer have a clear and compelling mission for charter school authorizing that aligns with, supports, and advances the intent of law and purpose of charter schools?	On September 23, 2022, the Commission completed and adopted its revised Strategic Plan that includes a revised Mission.
A.2: Strategic Vision and Organizational Goals Does the authorizer have and evaluate its work against its comprehensive long-term strategic vision for charter school authorizing with clear organizational goals and timeframes for achievement that align with, support, and advance the intent of law and the purpose of charter schools?	On September 23, 2022, the Commission completed and adopted its revised Strategic Plan that includes a revised Mission and Vision, including defined Goals and Strategies to achieve the Mission and Vision, along with annual Milestones and Actions, as well as measures of success aligned with its budgetary measures of success.
A.7: Self-Evaluation of Capacity, Infrastructure, and Practices To what degree does the authorizer regularly self-evaluate its internal ability (capacity, infrastructure, and practices) to oversee the portfolio of charter schools and develops	On April 1, 2022, the Commission took action to initiate a performance review by the National Association of Charter School Authorizers.

Performance Measure	Narrative description or list of actions identifying the findings addressed
continuous improvement plans to address findings of self-evaluation?	

X. Conclusion

In 2021-2022, the Commission and its 37 public charter schools largely returned to a more normalized school year with some lingering cases of COVID-19 occasionally affecting schools and disrupting teaching and learning. However, the public charter schools as a whole mirrored the broader public school system with some schools showing lower student proficiency in most of the areas of assessment, however, there are a number of schools that demonstrated incredible gains despite all of the challenges of the last few years. For example, about 20% of the schools in the portfolio met/exceeded both the State and Charter school proficiency rates in both math and language arts. These bright spots evidence the persistence and hard work of the schools no matter the challenges. As a whole the charter schools are represented in all three categories: those exceeding the state average, those at or near the state average, and those far below the state average.

a. Commission’s Priorities for the 2022-2023 School Year

- i. Continue to implement and effectuate the Commission’s Revised Strategic Plan

Guided by the Revised Strategic Plan and the Milestones for the 2022-2023 school year, the Commission will be focused on the following:

Goal 1

- Revise, Align, and approve a new Applications Process. to the definitions and diverse educational options in its portfolio;
- Continue to revise the definitions and diverse educational options in its portfolio

Goal 2

- Implement the data monitoring system; and
- Adopt and implement a decision-making framework; and
- Revise for continuous improvement through data informed inquiry process

Goal 3

- Implement the data informed inquiry process and System; and
- Communicate the findings from the Data informed inquiry process through our communication system

The Commission and its staff will continue to exercise the authorizer functions of oversight and accountability, while guiding schools to compliance with their charter contracts and the Commission’s performance expectations. In all of its operations and functions, the revised strategic plan encompasses an inquiry process and ongoing continuous improvement of its work.

ii. Contract 4.0 and the new Performance Framework

Charter Contract 4.0, adopted by the Commission at the end of the 2020-2021 school year, established a new Performance Framework. Presently there are 13 schools completing year one of this new contract. While the organizational and financial frameworks are aligned to the previous contract version, the APF is markedly different.

The APF outlines the measures by which the academic programs of the schools are monitored and evaluated. There are three new focal areas of the APF Contract 4.0: mission-alignment, a comparative indicator, and a site-specific measurement option. The State standardized testing data rounds out the multiple measures outlined in the APF. The core of the new APF places the school’s mission as stated in their contract at the center of their academic performance. A mission-aligned indicator measures the extent to which the school is implementing its mission and vision. Schools self-report their level of mission alignment from simple articulation in the school setting, to articulation of units and lessons (curriculum, instruction, and assessment), and ultimately demonstrating the mission in yearlong curriculum units, lessons, and assessments. There are two additional and optional measures in APF 4.0. Schools may report on their performance in comparison to complex areas, complexes, or the charter portfolio of 37 schools. Schools may also choose to report on site-relevant diagnostics that depict student achievement/growth at critical points throughout the year.

To perform as laboratories of innovation, the schools design programs and curriculum, and inform their work through multiple assessments that align to the mission to carry forth the wisdom, culture, and values of their collective community. Ultimately Contract 4.0 APF puts the school’s mission at the center of the work they do each day to meet the needs of the communities they serve.

iii. Early Learning and a P-3 System in Charter Schools

With the conclusion of the federal prekindergarten grant, 11 public charter schools established 17 public charter school classrooms across the state, ensuring that our youngest learners begin their life-long learning journey with a strong foundation. This investment by the federal government was followed by the state’s commitment to a high-quality public early learning system by the enactment of Act 276, Session Laws of Hawai‘i 2019. The state’s commitment resulted in the first state-funded prekindergarten classrooms in charter schools and the initiation of a prekindergarten to grade 3 (P-3) continuum of learning, which are key components of the Commission’s portfolio strategy. In school year

2020-2021, Act 46 SLH 2020, moved the administrative authority of the public prekindergarten programs in charter schools to the Commission. The high quality of components as identified in the previous years remained, while expanding eligibility by allowing children who are three- and four-years-old by July 31 to be eligible for the program.

Through state funding, the Commission is working with charter schools to strengthen and/or refine their P-3 learning system that is designed to build foundational learning for its students and future improvements in student outcomes. While there are multiple facets of P-3 alignment, the Commission is supporting schools that requested support to build or refine effective instructional practices that promote student engagement and learning across the prekindergarten to grade three spectrums.

This has led to the partnership with a consultant and researchers associated with the Harvard Project Zero Graduate School of Education. This project, The Thinking Classroom Hawai'i, is in its third year of implementation. The vision of this project is to build on the instructional practices of our charter schools, as a system-building P-3 approach, to sustain and grow school-wide cultures of thinking and learning across all classrooms. The Commission and The Thinking Classroom Hawai'i project strives toward a strong charter school community that is grounded in high-quality instruction and thinking practices. The Commission and its partnered public charter schools of The Thinking Classroom Hawai'i are working collaboratively to refine and build upon the instructional practices of our classrooms. Ultimately, the goal is to improve student outcomes by creating cultures of deep thinking and understanding that promote lifelong learning.

- iv. Federal Programs: Titles 1, 2, and 4; Comprehensive Support and Improvement (CSI); and Targeted Support and Improvement (TSI)

The Commission's Federal Programs Team (FPT) will support 23 of the 37 charter schools in school year 2022-2023. Title 1 funds are designated for schools at which 47.2% or more of the total student population is eligible for free or reduced-price meals. In addition, five of the 23 supported schools will receive CSI funds.

During the 2022-2023 school year, FPT will continue to assist charter schools with their comprehensive needs assessments (CNA) and comprehensive academic plans (CAP). Schools will have learning outcomes that clearly align their CNA and CAP with their contract's mission and vision statements. FPT will continue its professional development program that is designed to strengthen each school's identity and alignment with its mission and vision. FPT is utilizing an Inquiry Approach to assist in improvement, implementation, and impact.

FPT will be continuing sessions on data visualization, outcome-centered learning, cultural sustainability, visual design, and spiral inquiry. A unique approach to professional development is used to work collaboratively with all professional development providers in a holistic approach to addressing the foundational needs of the schools. Monthly collaborative meetings are held with all professional development providers and the FPT staff to ensure that relevant and deep learning is at the forefront. CNAs for non-exiting CSI schools will be developed through this collaborative approach. A unique professional development plan will be implemented for each non-exiting CSI school.

The figure below illustrates the framework the FPT employs when they provide technical assistance to our schools that access Federal funds. The Commission’s FPT is determined to support schools in developing and executing plans for utilizing their federal funds that are centered on impacting student outcomes in a positive way.

Frame

The essential focus of the Charter Schools is framed in the following three goals: expression of one’s identity, building of experiences for all, and demonstrating positive outcomes. The action for each goal is set to provide and sustain growth for all learners, student and adult, in all educational settings. Forthwith, all references to “learners” includes all students, teachers, and staff in the school setting. Imperative to this frame is a focus on quality experiences that will expand with and through time, and that serve to sustain the culture within which we are all educated.

XI. Glossary of Key Terms

Term	Definition
Academic Performance Framework (APF)	The framework used by the Commission to assess the academic performance of charter schools.
Act 130	Act 130 of the 2012 Session Laws of Hawai‘i, which established the Commission as the state’s only charter school authorizer.
Act 276	Act 276 of the 2019 Session Laws of Hawai‘i, which provided state funding for prekindergarten programs in charter schools and placed all public prekindergarten programs, including those in charter schools, under the administrative authority of the Executive Office on Early Learning.
Act 46	Act 46 of the 2020 Session Laws of Hawai‘i, which expanded the eligibility of state-funded prekindergarten programs to children who are three- and four-years-old by July 31, regardless of family income or categorical priority status, and moved the administrative authority of the public pre-K programs in charter schools from the Executive Office on Early Learning to the Commission. Act 46 was updated by Act 210 of the 2021 Session Laws of Hawai‘i
Act 210	Act 210 of the Sessions Laws of Hawai‘i 2021, updates Act 46, and assigns and codifies the law into Hawai‘i Revised Statute §302D-39.
B&F	Hawai‘i Department of Budget and Finance
Blended learning	An educational model that delivers instruction in both an online environment and a “brick-and-mortar” setting.
BOE	Hawai‘i State Board of Education
Charter Contract	State Public Charter School Contract, a contract between the Commission and a charter school’s governing board.
Commission	State Public Charter School Commission
DAGS	Hawai‘i Department of Accounting and General Services
HIDOE	Hawai‘i State Department of Education
English learners / EL	A student subgroup that is made up of students with limited English proficiency.
ESEA	Federal Elementary and Secondary Education Act of 1964
ESSA	Federal Every Student Succeeds Act of 2015
FERPA	Federal Family Educational Rights and Privacy Act, a federal law that protects the privacy of student education records and applies to all schools that receive funds under an applicable program of the U.S. Department of Education.
Financial Performance Framework (FPF)	The framework used by the Commission to assess the financial performance of charter schools.
FRL	Students who qualify for free and reduced-price meals under the National School Lunch Program.

Term	Definition
High needs students	Students who are in one or more of the DOE’s designated high need student subgroups: students eligible for free or reduced-price meals, Special Education students, and English learners.
HRS	Hawai‘i Revised Statutes
Hawai‘i State Alternate Assessment / HSA-Alt	A system of assessments for students with significant cognitive disabilities who participate in a school curriculum that includes academic instruction as well as functional life skills.
Hawai‘i State Science Assessments / HSA Science	A standardized assessment for science that is administered to students in grades 4 and 8 who are enrolled at English medium public schools statewide.
IDEA	Federal Individuals with Disabilities Education Act
Kaipuni Assessment of Educational Outcomes / KĀ‘EO	A standardized assessment for Hawaiian language arts, math, and science that is administered to students in grades 3 to 8 who are enrolled at Kaipuni (Hawaiian immersion/medium) schools statewide.
MGP	Median student growth percentile, which is used to compare students’ performance on statewide assessments to that of their academic peers.
NACSA	National Association of Charter School Authorizers
NCLB	No Child Left Behind
Non-high needs students	Students who are not classified as “high needs students” (see definition above).
Organizational Performance Framework (OPF)	The framework used by the Commission to assess the organizational performance of charter schools.
P-3	Preschool to grade 3
Performance Framework	The Commission’s accountability system, consisting of the Academic, Financial, and Organizational Performance Frameworks.
PPE	Personal protective equipment
Pre-K	Prekindergarten
SLH	Session Laws of Hawai‘i
Smarter Balanced Assessment / SBA	A standardized assessment for English language arts/literacy and math that is administered to students in grades 3 to 8 and 11 who are enrolled at English medium public schools statewide.
SPED	Students who receive special education services
Strive HI	Strive HI Performance System, the DOE’s accountability and improvement system that is applied to all Hawai‘i public schools, including charter schools.
Value Added measure	Measures whose purpose is to capture the work that a charter school is doing to impact student academic performance through mission-aligned initiatives.
Virtual learning	An educational model that delivers instruction exclusively in an online environment rather than in a “brick-and-mortar” setting.

XII. Data in Appendix Tables

The school-level results for the Strive HI measures included in this report are presented in Appendix B. It is important to note that, for any one of the following reasons, these tables do not always include data for all 37 charter schools in operation during the 2021-2022 school year.

a. Suppressed Data

The Federal Family Educational Rights and Privacy Act (FERPA), which protects the privacy of students and families, regulates the disclosure of student information by schools and educational institutions that receive federal education funds and requires the suppression of data that may be used to publicly identify individual students.

In order to comply with this requirement and protect the confidentiality of the charter school students whose data are presented in this report, the Commission follows these data suppression guidelines:

1. Whenever the sample size (also referred to as “n-size”) of a reported group of students is smaller than 11, the data are not included in the table and are instead replaced with “Suppressed”.

Rationale: When data represent a small number of students, it is more likely that the students in the group may be identified, so these data are excluded from public reporting as a precaution.

2. For School Year 2021-2022 data, to align with HDOE reporting, whenever a reported percentage is at 0%, the data is masked as “Suppressed”.
3. For past school years, whenever a reported percentage is at or near 0%, the data are masked as follows:
 - If a school’s data are in the range of 95% to 100%, the actual data are replaced with “(95-100%)” in the data table.
 - If a school’s data are in the range of 0% to 5%, the actual data are replaced with “(0-5%)” in the data table.

Rationale: Percentages at the extreme ends of the spectrum (i.e., 100% and 0%) effectively reveal the performance of all students in a reported group. For example, if 100% of the tested students at a school met the standard on an assessment, then reporting this figure discloses the performance of all tested students at the school.

In order to protect students’ privacy, the Commission does not publicly report results that are either 100% or 0%; however, rather than completely suppress the data, the Commission has chosen to mask the data so that it may provide a general indication of school performance while still maintaining students’ privacy.

In addition, rather than follow the practice of “blanket suppression,” which calls for the suppression of a school’s results on all measures if the results for at least one measure are suppressed, the Commission has elected to apply its suppression rules to each measure

individually and has only suppressed data when needed. For this reason, the schools whose data are suppressed in this report varies from table to table.

b. Unavailable Data

Data may not be available for a charter school for one of the following reasons:

- For school year 2019-2020, statewide assessments were canceled due to the impact of COVID-19, so data are not available for the Strive HI academic proficiency, achievement gap, academic growth, and 11th grade ACT metrics, which are also used for the APF.
- The measure did not apply to the school. For example, as described in the “Readiness” section, there are different college and career readiness measures for each grade division; thus, the high school readiness measures do not apply to schools that only have elementary and/or middle school divisions.
- There were no students in a particular group at a school and, therefore, data were not generated. For example, if a school did not have any non-high needs students, there would be no data for the non-high needs ELA/HLA and math proficiency rate measures.

Please refer to Section XIII (Legend for Appendix Tables) for more details and examples.

c. Data Pooled

For school year 2021-2022, when sample sizes (n-sizes) are too small to be considered reliable, multiple years of data are “pooled” together and treated as one year’s worth of data. For the following Strive HI measures, if the current year’s n-size is fewer than 11 students, then the current year’s data will be pooled with the data from the previous one or two years until the size of the group reaches 11 students. If, after pooling the data for these three years, an n-size of 11 students still has not been reached, then the data are suppressed. Note: prior years n-size was 20 students.

Achievement:

- Proficiency in English language arts/literacy (ELA) or Hawaiian language arts (HLA)
- Proficiency in math

Growth:

- Growth in ELA/HLA
- Growth in math
- Readiness:
 - Chronic absenteeism
 - Four-year graduation rate

For all other Strive HI measures, the data are not pooled and are only publicly reported if the n-size is 11 or more students for a given school year.

XIII. Legend for Appendix Tables

Term/Symbol	Definition and Explanation
(95-100%)	<p>Replaces all data in the range of 95% to 100%.</p> <p>Reason: Reporting school results of 100% would effectively reveal the performance of all students in the reported group, so, in order to protect students' privacy, the Commission masks these data by providing a performance range.</p> <p>Applies to past school years data.</p>
(0-5%)	<p>Replaces all data in the range of 0% to 5%.</p> <p>Reason: Reporting school results of 0% would effectively reveal the performance of all students in the reported group, so, in order to protect students' privacy, the Commission masks these data by providing a performance range.</p> <p>Applies to past school years data.</p>
Suppressed	<p>The data have been suppressed because the sample size ("n size") is less than the minimum threshold required by the Hawai'i Department of Education for public reports (less than 11 students for school year 2021-2022 onward).</p>
Not available	<p>The measure applies to the school, but there are no data to report.</p> <p>Examples:</p> <p>For school year 2019-2020, statewide assessments were cancelled due to the impact of COVID-19, so data are not available for certain academic metrics.</p> <p>A school served all tested grade levels, but did not have any English learners that year, so the school did not have English learner proficiency data to report.</p> <p>The number of tested non-high needs students at a school was less than 11, so neither the proficiency rate of non-high needs students nor the achievement gap was calculated for the school.</p>
Does not apply	<p>The measure does not apply to the school.</p> <p>Examples:</p> <p>An elementary school does not serve grade 12, so the four-year graduation rate measure does not apply to the school.</p> <p>The Kaiapuni Assessment of Educational Outcomes (the Hawaiian language statewide assessment) is only administered at Kaiapuni schools, so the growth measure for this assessment does not apply to English medium schools.</p>
Not open	<p>The school was not open in the given school year.</p>

XIV. Appendices

Appendix A: Performance Frameworks – Individual School Performance Summaries

Appendix B: Charter School Academic Performance Data for School Years 2018-2019, 2019-2020, 2020-2021, and 2021-2022

Appendix C: Charter School Financial Performance Framework Data for School Years 2018-2019, 2019-2020, 2020-2021, and 2021-2022

Appendix D: Charter School Organizational Performance Framework Data for School Years 2018-2019, 2019-2020, 2020-2021, and 2021-2022

Appendix E: Hawai‘i State Public Charter School Commission Annual Audit Report for Fiscal Year 2021-2022

a. **Appendix A: Performance Frameworks – Individual School Performance Summaries**

Academic Performance Framework

Graduation Rate		
% Grad in 4 yrs: TARGET	% Grad in 4 yrs: ACTUAL	Met target?
75%-86%	58%	Did not meet

College-going Rate		
% Enrolled in college w/in 1 st fall of grad: TARGET	% Enrolled in college w/in 1 st fall of grad: ACTUAL	Met target?
62% - 71%	29%	Did not meet

¹ In the time since the Commission approved the performance targets in the current charter school contracts, the Hawaii Department of Education changed the chronic absenteeism measure in the Strive HI Performance System and broadened it from elementary/middle school grades to all grade levels served by a school. Because of this change, chronic absenteeism rates for specific grade divisions within a multi-division school are no longer readily available to the Commission.

ANNUAL ACADEMIC PERFORMANCE FRAMEWORK

2 Required Indicators (100 points) and 2 Supplemental Indicators (15 additional points)

Total Points	86 / 73¹
---------------------	----------------------------

Indicator 1. Mission Aligned Initiative (MAI) (maximum 30 points)

1 (A) The school is implementing its mission and vision based on its mission statement.
(maximum 20 points)

The school self-rates their progress for the year and provides documentation to support their rating. The documentation is reviewed and confirmed after submitted.

Measure	Basic (10)	Practiced (15)	Ingrained (20)	Score (20)
Mission Alignment to Student Success School process includes:	Articulation of school mission/vision	Articulation of units/ lessons (curriculum, instruction, and assessment) that target an aspect of the school mission/vision ²	Articulation of a yearlong curriculum with units/lessons and assessments that target an aspect of the school mission/vision	15

MAI Narrative 1,000-word limit Submission (maximum 10 points)

1 (B) Share what you have done as a school to meet your mission.

The documentation of mission alignment in 1(A) is analyzed and a narrative is submitted to validate the school's progress for the year.

¹ The School will be deemed to have met its goals and academic achievement expectations for Charter review and renewal if the School has earned no less than an average of 73 points during the first four years of this Charter Contract. The annual APF is based on a 100-point scale with the possibility of an additional 15 supplemental points.

ANNUAL ACADEMIC PERFORMANCE FRAMEWORK

2 Required Indicators (100 points) and 2 Supplemental Indicators (15 additional points)

Total Points	68/73 ¹
---------------------	--------------------

Indicator 1. Mission Aligned Initiative (MAI) (maximum 30 points)

1 (A) The school is implementing its mission and vision based on its mission statement.
(maximum 20 points)

The school self-rates their progress for the year and provides documentation to support their rating. The documentation is reviewed and confirmed after submitted.

Measure	Basic (10)	Practiced (15)	Ingrained (20)	Score (20)
Mission Alignment to Student Success School process includes:	Articulation of school mission/vision ²	Articulation of units/lessons (curriculum, instruction, and assessment) that target an aspect of the school mission/vision	Articulation of a yearlong curriculum with units/lessons and assessments that target an aspect of the school mission/vision	10

MAI Narrative 1,000-word limit Submission (maximum 10 points)

1 (B) Share what you have done as a school to meet your mission.

The documentation of mission alignment in 1(A) is analyzed and a narrative is submitted to validate the school's progress for the year.

¹ The School will be deemed to have met its goals and academic achievement expectations for Charter review and renewal if the School has earned no less than an average of 73 points during the first four years of this Charter Contract. The annual APF is based on a 100-point scale with the possibility of an additional 15 supplemental points.

¹ In the time since the Commission approved the performance targets in the current charter school contracts, the Hawaii Department of Education changed the chronic absenteeism measure in the Strive HI Performance System and broadened it from elementary/middle school grades to all grade levels served by a school. Because of this change, chronic absenteeism rates for specific grade divisions within a multi-division school are no longer readily available to the Commission.

ANNUAL ACADEMIC PERFORMANCE FRAMEWORK

2 Required Indicators (100 points) and 2 Supplemental Indicators (15 additional points)

Total Points	85 /73 ¹
---------------------	---------------------

Indicator 1. Mission Aligned Initiative (MAI) (maximum 30 points)

1 (A) The school is implementing its mission and vision based on its mission statement.
(maximum 20 points)

The school self-rates their progress for the year and provides documentation to support their rating. The documentation is reviewed and confirmed after submitted.

Measure	Basic (10)	Practiced (15)	Ingrained (20)	Score (20)
Mission Alignment to Student Success School process includes:	Articulation of school mission/vision	Articulation of units/ lessons (curriculum, instruction, and assessment) that target an aspect of the school mission/vision ²	Articulation of a yearlong curriculum with units/lessons and assessments that target an aspect of the school mission/vision	15

MAI Narrative 1,000-word limit Submission (maximum 10 points)

1 (B) Share what you have done as a school to meet your mission.

The documentation of mission alignment in 1(A) is analyzed and a narrative is submitted to validate the school's progress for the year.

¹ The School will be deemed to have met its goals and academic achievement expectations for Charter review and renewal if the School has earned no less than an average of 73 points during the first four years of this Charter Contract. The annual APF is based on a 100-point scale with the possibility of an additional 15 supplemental points.

ANNUAL ACADEMIC PERFORMANCE FRAMEWORK

2 Required Indicators (100 points) and 2 Supplemental Indicators (15 additional points)

Total Points	89/73¹
---------------------	--------------------------

Indicator 1. Mission Aligned Initiative (MAI) (maximum 30 points)

1 (A) The school is implementing its mission and vision based on its mission statement.
(maximum 20 points)

The school self-rates their progress for the year and provides documentation to support their rating. The documentation is reviewed and confirmed after submitted.

Measure	Basic (10)	Practiced (15)	Ingrained (20)	Score (20)
Mission Alignment to Student Success School process includes:	Articulation of school mission/vision	Articulation of units/lessons (curriculum, instruction, and assessment) that target an aspect of the school mission/vision ²	Articulation of a yearlong curriculum with units/lessons and assessments that target an aspect of the school mission/vision	15

MAI Narrative 1,000-word limit Submission (maximum 10 points)

1 (B) Share what you have done as a school to meet your mission.

The documentation of mission alignment in 1(A) is analyzed and a narrative is submitted to validate the school's progress for the year.

¹ The School will be deemed to have met its goals and academic achievement expectations for Charter review and renewal if the School has earned no less than an average of 73 points during the first four years of this Charter Contract. The annual APF is based on a 100-point scale with the possibility of an additional 15 supplemental points.

Narrative Analysis of Data Score (9)	9

Financial Performance Framework**Financial Performance Framework Audited Fiscal Year 2021-22 Risk Assessment Result Formula**

$(\text{Current Ratio} \times 0.10) + (\text{Unrestricted Days Cash} \times 0.35) + (\text{Debt to Asset Ratio} \times 0.10) + (\text{Cash Flow} \times 0.10) + (\text{Total Margin} \times 0.25) + (\text{Budget Variance} \times 0.10) = \text{Final Risk Assessment Score}$

The individual indicators and final risk assessment results are represented as one of five categories based on the school's risk assessment calculations and are rounded to the nearest whole number.

Low	Acceptable	Moderate	High	Significant
1	2	3	4	5

West Hawai'i Explorations Academy

$$(1 \times 0.10) + (1 \times 0.35) + (4 \times 0.10) + (3 \times 0.10) + (5 \times 0.25) + (1 \times 0.10) = 2.50$$

$$0.10 + 0.35 + 0.40 + 0.30 + 1.25 + 0.10 = 2.50 \text{ (Rounded)} = 3$$

Final Fiscal Year 2021-22 Risk Assessment: Moderate

West Hawai'i Explorations Academy

School Year 2021-2022

Organizational Performance Framework

For School Year 2021-2022, the Organizational Performance Framework measured the following **annual** indicators as required by the Commission's Kuleana Portal (compliance system).

Contract Section Requirement		
<i>School Charter and Mission - Article II</i>	Annual	Evidence
2.1 Charter <i>The school is operating in locations listed in section 2.1.</i>	x	Kuleana Portal <ul style="list-style-type: none"> SY Calendar: <i>Approved</i> Student Admission Packet: <i>Received</i>

<i>Governance - Article IV</i>	Annual	Comments
4.6 School Governing Board Member Information	x	Kuleana Portal <ul style="list-style-type: none"> Governing Board Roster: <i>Approved</i>

<i>School Performance - Article V</i>	Annual	Evidence
5.1 The School has no outstanding Notices of Concern or Deficiency	x	None

<i>Academic Performance - Article VI</i>	Annual	Comments
6.5 Virtual and Blended Programs <i>Authorized virtual and/or blended programs adhere to the Commission's Online Virtual and Blended Learning Guidelines.</i>	x	Does not apply

<i>Financial Management - Article VIII</i>	Annual	Evidence
8.7 Quarterly Reports <i>School submitted all quarterly financial reports to Commission.</i>	x	Kuleana Portal <ul style="list-style-type: none"> 4th Quarter (20-21): <i>Approved</i> 1st Quarter (21-22): <i>Approved</i> 2nd Quarter (21-22): <i>Approved</i> 3rd Quarter (21-22): <i>Approved</i>
8.8 Annual Budgets <i>School submitted to the Commission, School's proposed budget for the upcoming fiscal year according to the requirements of the section.</i>	x	Kuleana Portal <ul style="list-style-type: none"> Annual Budget: <i>Approved</i>
8.16 Enrollment Count Reports for Per-pupil funding <i>The School provides projected enrollment counts for funding by May 15.</i>	x	Kuleana Portal <ul style="list-style-type: none"> Student Enrollment Projections for coming SY (22-23): <i>Approved</i>

West Hawai'i Explorations Academy

School Year 2021-2022

<i>Admission, Enrollment, and Attendance - Article IX</i>	Annual	Evidence
9.3 Application and Admissions <i>The School admission policies and procedures are approved by the Commission and follow HRS §302D-34.</i>	x	Kuleana Portal <ul style="list-style-type: none"> Student Admission Packet: Received
9.4 Enrollment <i>Enrollment in the School is open to all students of ages and grades who are residents of the State of Hawai'i.</i>	x	Kuleana Portal <ul style="list-style-type: none"> Student Admission Packet: Received

<i>School Facilities - Article XIV</i>	Annual	Evidence
14.3 Compliance with Codes <i>The School facilities comply with all applicable state and county building, zoning, fire, health, and safety code requirements, and the School complies at all times with the occupancy capacity limits.</i>	x	Kuleana Portal <ul style="list-style-type: none"> Fire Inspection: Approved

STATE PUBLIC CHARTER SCHOOL COMMISSION
(An Agency of the State of Hawaii)

MANAGEMENT’S DISCUSSION AND ANALYSIS

For the Year Ended June 30, 2022

Effective July 1, 2013, the State Public Charter School Commission (“Commission”) was established under Act 130, Chapter 302D, Hawaii Revised Statutes, with statewide chartering jurisdiction and authority. Its predecessor, the Charter School Administrative Office (“CSAO”), which was established by Chapter 302B, Hawaii Revised Statutes in 2014, closed as of June 30, 2013 pursuant to the repeal of Chapter 302B.

The following is management’s discussion and analysis of the Commission’s financial activities for the fiscal year ended June 30, 2022. Please read it in conjunction with the financial statements and the related notes to the financial statements, which begin on page 16.

FINANCIAL HIGHLIGHTS

- The Commission’s total net position increased by \$299,932 in FY 2021-22.
- The Commission, as a pass-through entity, transferred \$118,930,997 to charter schools comprised of state and federal funding in FY 2021-22, a decrease of approximately 2% over FY 2020-21.
- The Commission provided to all 37 charter schools \$3,264,946 in FY 2021-22 from Impact Aid funds and \$2,483,568 in FY 2021-22 from the Elementary and Secondary School Emergency Relief Fund (ESSER) through the CARES Act to address the impact that the COVID-19 pandemic has had, and continues to have, on the charter schools.
- During FY 2021-22, the Commission continued the reorganization of its structure and purpose to an organization that provides direct support, coaching, and leadership development to both charter school administrators and governing board members.

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report consists of four parts – management’s discussion and analysis (this section), financial information, internal control and compliance, and schedule of findings and questioned costs. The financial information section includes the financial statements, which consists of two types of statements that present different views of the Commission’s financial activities:

- The first two statements are government-wide financial statements that provide both long-term and short-term information about the Commission’s overall financial status.
- The remaining statements are fund financial statements that focus on the individual parts of the Commission, reporting the Commission’s operations in more detail than the government-wide statements. The fund financial statements show how general services were financed in the short term as well as the funds that remain for future spending.

(An Agency of the State of Hawaii)

MANAGEMENT’S DISCUSSION AND ANALYSIS (Continued)

For the Year Ended June 30, 2022

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

The financial statements also include notes that explain certain information in the financial statements and provide more detailed information. The statements are followed by supplementary financial information that provides information on the Commission’s federal expenditures. Figure A-1 shows how the required parts of the annual report are arranged and relate to one another.

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

For the Year Ended June 30, 2022

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Figure A-2 summarizes the major features of the Commission's financial statements, including the portion of the Commission they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and content of the financial statements.

<p style="text-align: center;">Figure A-2 Major Features of the Commission's Government-Wide and Fund Financial Statements</p>		
	<i>Government-Wide Statements</i>	<i>Fund Statements: Governmental Funds</i>
Scope	Entire Commission	If the Commission operated proprietary or fiduciary funds these would be excluded from these statements.
Required financial statements	<ul style="list-style-type: none"> • Statement of Net Position • Statement of Activities 	<ul style="list-style-type: none"> • Balance Sheet • Statement of Revenues, Expenditures, and Changes in Fund Balances
Accounting basis and measurement focus	Accrual accounting and economic resources focus.	Modified accrual accounting and current financial resources focus.
Type of asset/liability information	All assets and liabilities, both financial and capital, and short-term and long-term.	Only assets expected to be used and liabilities that come due during the year or soon thereafter; no capital assets included.
Type of inflow/outflow information	All revenues and expenses during the year, regardless of when cash is received or paid.	Revenues for which cash is received during or soon after the end of the year; expenditures when goods or services have been received and payment is due during the year or soon thereafter.

(An Agency of the State of Hawaii)

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

For the Year Ended June 30, 2022

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Government-Wide Financial Statements

The government-wide financial statements report information about the Commission as a whole using accounting methods similar to those used by private sector companies. The statement of net position includes all of the Commission's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

The government-wide financial statements report the Commission's net position and how its net position has changed during the year. Net position, the difference between the Commission's assets and liabilities, is one way to measure the Commission's financial health or position.

- Over time, increases or decreases in the Commission's net position are an indicator of whether its financial health is improving or deteriorating, respectively.
- To assess the overall health of the Commission, one would need to consider additional nonfinancial factors including how well the Commission performed in meeting its statutory obligations.

The government-wide financial statements of the Commission are included in one category, Governmental Activities, although other governmental agencies may report their activities in as many as three categories. For completeness, each of the three different categories is described here even though the Commission's activities are all presented in the Governmental Activities category:

- Governmental Activities – All of the Commission's activities are included here, such as administration, financial services, federal programs support, and information technology support. Operating revenues, which include a percentage of total charter school appropriations and federal grant income, pay for most of these activities.
- Business-type Activities – If the Commission engaged in activities, such as self-insurance programs or activities where the Commission was operating more like a business, these activities would be reported in a separate column in its government-wide financial statements.
- Component Units – If the Commission was financially responsible for a separate entity or entities, usually a non-profit corporation that meets certain accounting rules, then the "component unit" would be reported as such because of the Commission's financial responsibility to the component unit.

Fund Financial Statements

The fund financial statements provide more detailed information about the Commission's most significant funds – not the Commission as a whole. Funds are accounting devices that the Commission uses to keep track of specific sources of funding and spending for particular purposes.

STATE PUBLIC CHARTER SCHOOL COMMISSION
(An Agency of the State of Hawaii)

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

For the Year Ended June 30, 2022

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

The Commission reports its financial activities in two funds: the Commission General Fund and the Restricted – Federal Programs Fund. The Commission's general operations are reflected in the General Fund. Within the Restricted – Federal Programs Fund, the Commission records its activities for Federal Title I, Title II, Title III, Title IV, Pre-K, Impact Aid, SPED, and Other Federal Programs.

FINANCIAL ANALYSIS OF THE COMMISSION AS A WHOLE

Table A-1: Commission's Summary Statement of Net Position as of June 30, 2022

ASSETS	
Current assets	\$ 23,189,907
Capital assets, net	903,635
Total assets	<u>\$ 24,093,542</u>
LIABILITIES	
Current liabilities	\$ 22,574,628
Non-current liabilities	789,006
Total liabilities	<u>23,363,634</u>
NET POSITION	
Invested in capital assets	903,635
Unrestricted position (deficit)	<u>(173,727)</u>
Total net position	<u>729,908</u>
Total liabilities and net position	<u>\$ 24,093,542</u>

Increases or decreases in the net position may serve as a useful indicator of whether the Commission's financial condition is improving or deteriorating. Some of the Commission's net position is restricted as to the purposes for which the funds can be used because they are invested in capital assets, primarily computer equipment and the lease asset for the building.

FINANCIAL ANALYSIS OF THE COMMISSION AS A WHOLE (Continued)

Summary of the Commission's Revenues and Expenses for the Year Ended June 30, 2022

Revenues	
State Commission funding	\$ 1,730,648
Federal grants	1,070,192
Other income	23,229
Total revenues	<u>2,824,069</u>
Expenses	
Payroll and related expenses	1,700,764
Professional services	509,378
Amortization of lease assets	112,004
Service fees and other expenses	38,388
Utilities	27,866
Professional development	27,461
Travel	24,988
Interest on lease payable	24,571
Depreciation of capital assets	20,441
Repairs and maintenance	11,890
Parking	8,355
Dues and subscriptions	7,442
Telecommunications	7,406
Rental	1,668
Meeting refreshments and meals	1,067
Postage	283
Supplies	165
Total Expenses	<u>2,524,137</u>
Transfers	
Transfers in	118,930,997
Transfers out	<u>(118,930,997)</u>
Total transfers	<u>-</u>
Change in net position	299,932
Net position – beginning of year	<u>429,976</u>
Net position – end of year	<u>\$ 729,908</u>

The narrative that follows considers the operations of the Commission's governmental activities.

STATE PUBLIC CHARTER SCHOOL COMMISSION
(An Agency of the State of Hawaii)

MANAGEMENT’S DISCUSSION AND ANALYSIS (Continued)

For the Year Ended June 30, 2022

FINANCIAL ANALYSIS OF THE COMMISSION AS A WHOLE (Continued)

In the fiscal year ended June 30, 2022, the Commission’s total revenues increased by 18% to \$2,824,069, compared to total revenues of \$2,397,018 in the fiscal year ended June 30, 2021. State funding continues to be a significant source of funds for charter schools, as provided by statute and appropriated by the State Legislature. In the fiscal year ended June 30, 2022, federal revenues amounted to 38% of total revenues for the Commission, or \$1,070,192.

In the fiscal year ended June 30, 2022, funding provided to administer the Commission increased by 8% or by \$126,990 and other income decreased by 59% or by \$33,750 due to funding changes from the State Department of Education.

In the fiscal year ended June 30, 2022, the total cost of all programs and services provided by the Commission increased by 6% or by \$132,719. Expenses for the Commission cover a range of services as required by statute to support the Commission in its role as authorizer. Significant changes in expenses in the fiscal year ended June 30, 2022 include:

- Payroll and related expenses decreased by 15% or \$294,319 due to employee turnover and only three new employees hired during the year.
- Professional services increased by 261% or \$368,175 due to using the services of contractors compared to their limited use during the COVID-19 pandemic.
- Amortization of the lease assets of \$112,004 and interest on the lease payable of \$24,571 are due to implementation during the year of GASB No. 87, *Leases*, related to the building lease of the Commission. The implementation of the new lease standard also resulted in the decrease in building lease expense.
- Travel increased 11,362% or \$24,770 due to lifting of COVID-19 pandemic restrictions that allowed travel again similar to the Commission’s pre-pandemic levels.

The narrative that follows considers the operations of the Commission’s governmental activities (Figure-1).

MANAGEMENT'S DISCUSSION AND ANALYSIS (Continued)

For the Year Ended June 30, 2022

FINANCIAL ANALYSIS OF THE COMMISSION AS A WHOLE (Continued)

Governmental activities

The cost of all governmental activities of the Commission for the fiscal year ended June 30, 2022 was \$2,442,277.

Business-type activities

Some governmental agencies charge fees to customers to fund certain types of services it provides. If the Commission operated business type funds, these activities would be reported as such. For the fiscal year ended June 30, 2022, the Commission did not engage in any business-type activities.

FINANCIAL ANALYSIS OF THE COMMISSION'S FUNDS

As the Commission completed the current fiscal year, its governmental funds reported a fund balance of \$1,018,031, an increase from the prior fiscal year fund balance of \$636,239.

CAPITAL ASSETS AND LONG-TERM DEBT ACTIVITIES

The Commission's capital asset policy provides that furniture and equipment purchases that exceed \$500 with a useful life of greater than one year be capitalized and depreciated over the asset's useful life. During the year ended June 30, 2022, the Commission made purchases of \$14,077 of furniture or equipment that were capitalized and had no disposals during the year. The Commission also had lease assets related to its building lease of \$980,035 and related accumulated amortization of \$112,004 at June 30, 2022. The Commission also had a lease payable of \$886,228 related to its building lease at June 30, 2022.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET AND RATES

The official enrollment count date for charter schools is October 15 of each year. Enrollment among the charter schools decreased by approximately 1% in the 2021-22 school year to 12,029 compared to 12,140 in the 2020-21 school year.

CONTACTING THE COMMISSION'S FINANCIAL MANAGEMENT

This financial report is designed to provide stakeholders with a general overview of the Commission's finances and to demonstrate the Commission's accountability for the funds it receives. Should you have questions about this report or need additional financial information, contact the Commission's Fiscal Services team, 1164 Bishop Street, Suite 1100, Honolulu, Hawaii 96813.

PART II
FINANCIAL INFORMATION

Draft

INDEPENDENT AUDITOR'S REPORT ON THE FINANCIAL STATEMENTS

State Public Charter School Commission:

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the State Public Charter School Commission (Commission), an agency of the State of Hawaii, as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Commission's basic financial statements as listed in the table of contents.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Commission as of June 30, 2022, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP).

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS) and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are required to be independent of the Commission and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Change in Accounting Principle

As discussed in Note A to the financial statements, during the year ended June 30, 2022, the Commission adopted Governmental Accounting Standards Board (GASB) Statement No. 87, *Leases*. Our opinion is not modified with respect to this matter.

Responsibility of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with U.S. GAAP; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Responsibility of Management for the Financial Statements (continued)

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Commission's ability to continue as a going concern for twelve months beyond the financial statements date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibility for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance, and therefore, is not a guarantee that an audit conducted in accordance with U.S. GAAS will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with U.S. GAAS, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Commission's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control - related matters that we identified during the audit.

Required Supplementary Information

U.S. GAAP requires that the management's discussion and analysis on pages 3 through 10 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by GASB which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with U.S. GAAS, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Required Supplementary Information (continued)

Management has omitted the budgetary comparison information that U.S. GAAP requires to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by GASB which considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by the missing information.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Commission's basic financial statements. The accompanying Schedule of Expenditures of Federal Awards is presented for purposes of additional analysis as required by the audit requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with U.S. GAAS. In our opinion, the Schedule of Expenditures of Federal Awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated **November XX, 2022**, on our consideration of the Commission's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grants agreements, and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Commission's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control over financial reporting and compliance.

STATE PUBLIC CHARTER SCHOOL COMMISSION
(An Agency of the State of Hawaii)

NOTES TO THE FINANCIAL STATEMENTS

For the Year Ended June 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Organization and Activity

The State Public Charter School Commission (Commission) was formed pursuant to Hawaii State Legislature (Legislature) Hawaii Revised Statutes 302D-3 and is attached to the Department of Education (DOE) for administrative purposes only. Among other duties, the Commission is responsible for the following:

- Preparing and executing the budget for the Commission,
- Allocating annual appropriations to the charter schools based on student enrollment,
- Monitoring charter school compliance with various state laws,
- Representing charter schools in communications with the Board of Education (BOE), and
- Chartering jurisdiction and authorizing public charter schools throughout the State of Hawaii (State).

In order to fulfill these responsibilities, the Commission employs an Executive Director and Framework Managers along with staff in its Honolulu, Hawaii office. All staff report to the Executive Director who reports to the Commission.

The Commission receives funding from the State. Other support is received in the form of payments for administrative costs allocated from various federal grants.

These financial statements are intended to present the financial position and activity of only the Commission and not that of the DOE. Additionally, these financial statements do not represent any balances or activities of the individual charter schools.

Basis of Presentation

The accompanying financial statements and accounting policies of the Commission are in accordance with accounting principles generally accepted in the United States of America (U.S. GAAP) as applicable to governmental units.

Government-Wide and Fund Financial Statements

The government-wide financial statements consist of the statement of net position and the statement of activities. These statements report all activities of the primary governmental unit. The statement of activities demonstrates the degree to which the direct expenses of a given function are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenues include grants that are restricted to meeting the operational requirements of a particular function. Other items not properly included among program revenues are reported instead as general revenues. The Commission does not allocate general government (indirect) expenses to other functions.

STATE PUBLIC CHARTER SCHOOL COMMISSION
(An Agency of the State of Hawaii)

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Year Ended June 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Government-Wide and Fund Financial Statements (continued)

Governmental funds financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized when they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Commission considers revenues other than federal grants and assistance awards to be available if they are collected within 60 days of the end of the fiscal year.

Federal grants and assistance awards made on the basis of entitlement periods are recorded as revenues when available and entitlement occurs which is generally within 12 months of the end of the current fiscal year. All other federal reimbursement-type grants are recorded as intergovernmental receivables and revenues when the related expenditures or expenses are incurred and funds are available.

Expenditures are generally recorded when a liability is incurred. However, expenditures related to compensated absences and claims and judgments, are recorded only when payment is due.

Encumbrances are recorded obligations in the form of purchase orders or contracts. The Commission records encumbrances at the time purchase orders or contracts are awarded and executed. Encumbrances outstanding at fiscal year-end are reported as restrictions, assignments, or commitments (no commitments in 2022) of fund balances since they do not constitute expenditures or liabilities.

Fund Accounting

The financial statements of the Commission are recorded in individual funds, each of which is deemed to be a separate accounting entity with a self-balancing set of accounts. The Commission uses fund accounting to report on its financial position and results of operations. Fund accounting is designed to demonstrate legal compliance and to aid financial management by segregating transactions related to certain government functions or activities.

Net Position

In the government-wide financial statements, net position is reported in three categories: investment in capital assets, net of related depreciation and amortization; restricted (none in 2022); and unrestricted. Restricted category components are restricted by parties outside of a state agency (such as citizens, public interest groups, or the judiciary) or imposed by law through enabling legislation.

Fund Balance Reporting

In the fund financial statements, governmental funds report reservations of fund balance for amounts that are not available for appropriation or are legally restricted by outside parties for use for a specific purpose. Designations of fund balances represent tentative management plans that are subject to change.

STATE PUBLIC CHARTER SCHOOL COMMISSION
(An Agency of the State of Hawaii)

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Year Ended June 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Fund Balance Reporting (continued)

In accordance with Government Accounting Standards Board (GASB) Statement No. 54, *Fund Balance Reporting and Governmental Fund Type Definitions*, the Commission classifies fund balances based primarily on the extent to which it is bound to follow constraints on how resources can be spent. Classifications used by the Commission are:

Restricted – Represents resources that are restricted to specific purposes usually imposed by external parties such as creditors, grantors, or other governments.

Committed – Represents resources that can only be used for specific purposes pursuant to formal action of the Legislature (none in 2022).

Assigned – Represents resources that are constrained by management's intent to be used for specific purposes, but are neither restricted nor committed (none in 2022).

Unassigned – Represents residual balances that are neither non-spendable, restricted, committed or assigned.

Encumbrance balances at year-end are reflected as assigned. The Commission's Special Funds consist of specific revenue sources restricted or committed as to expenditure for specific purposes other than debt service or capital projects. Restricted and committed revenues are expected to comprise a substantial portion of the fund inflows. Funds not meeting these criteria are reported in the general fund. The spending policy of the Commission's Special Funds is, in order of priority, restricted, committed, and then assigned. The Commission's classification of Special Fund inflows are restricted (federal grants), program revenues (committed), transfers from other funds (assigned), investment income (assigned unless restricted), and miscellaneous revenues (assigned). The Commission's Special Funds are not encumbered.

Use of Estimates

The preparation of financial statements in conformity with U.S. GAAP requires management to make estimates and assumptions that affect the amounts reported in the basic financial statements and accompanying notes. Actual results could differ from those estimates, it is reasonably possible that such estimates may change within the near term, and such differences could be material to the financial statements.

Accrued Leave Earnings

The Commission's policy is to permit employees to accumulate earned but unused vacation and sick leave benefits. There is no liability for unpaid accumulated sick leave as sick leave is not convertible to pay upon termination of employment. All vacation pay is accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements.

STATE PUBLIC CHARTER SCHOOL COMMISSION
(An Agency of the State of Hawaii)

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Year Ended June 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash and Cash Equivalents

Cash and cash equivalents include all cash and unrestricted highly liquid investments with original maturities of three months or less.

Capital Assets Being Depreciated

Capital assets purchased or acquired with an original cost of \$500 or more are reported in the statement of net position, at cost. Maintenance and repairs are charged to operations when incurred. Betterments and major improvements which significantly increase values, change capacities, or extend useful lives are capitalized. When assets are retired or otherwise disposed of, the cost and accumulated depreciation are removed from the accounts, and any resulting gain or loss is recognized in the statement of activities.

The Commission's capital assets being depreciated consist of furniture and equipment which are depreciated using the straight-line method over their estimated useful lives of five to seven years.

Lease Assets and Lease Payable

The Commission has a policy to recognize a lease liability (lease payable) and a right-to-use lease asset (lease asset) in its financial statements. The Commission recognizes lease liabilities with an initial, individual value of \$25,000 or more with a lease term greater than one year. Variable payments based on future performance of the School or usage of the underlying asset are not included in the measurement of the lease liability.

At the commencement of a lease, the Commission initially measures the lease liability at the present value of payments expected to be made during the lease term. Subsequently, the lease liability is reduced by the principal portion of lease payments made.

Lease assets are recorded at the amount of the initial measurement of the lease liabilities and modified by any lease payments made to the lessor at or before the commencement of the lease term, less any lease incentives received from the lessor at or before the commencement of the lease term along with any initial direct costs that are ancillary charges necessary to place the lease assets into service. Lease assets are amortized using the straight-line method over the shorter of the lease term or the estimated useful life of the underlying asset, unless the lease contains a purchase option that the Commission has determined is reasonably certain of being exercised. In this case, the lease asset is amortized over the estimated useful life of the underlying asset.

Key estimates and judgments related to leases include how the Commission determines (1) the discount rate it uses to discount the expected lease payments to present value, (2) lease term, and (3) lease payments.

- The Commission uses the interest rate charged by the lessor as the discount rate. When the interest rate charged by the lessor is not provided, the Commission generally uses its estimated incremental borrowing rate as the discount rate for leases.
- The lease term includes the noncancellable period of the lease.
- Lease payments included in the measurement of the lease liability are composed of fixed payments and the purchase option price that the Commission is reasonably certain to exercise.

STATE PUBLIC CHARTER SCHOOL COMMISSION
(An Agency of the State of Hawaii)

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Year Ended June 30, 2022

NOTE A – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Lease Assets and Lease Payable (continued)

The Commission monitors changes in circumstances that would require a remeasurement of its lease and will remeasure any lease asset and liability if certain changes occur that are expected to significantly affect the value of the lease asset or the amount of the lease liability. Lease assets are reported as right to use along with other capital assets and leases payable are reported with noncurrent liabilities on the statement of net position.

Pass Through Receivable and Payable Accounts

The Commission acts as an intermediary for payroll and related benefits that are due and/or payable between the State and individual charter schools. For charter schools that choose to be on the DOE system, the Commission records a pass through receivable from charter schools and a payable to the DOE for the payroll amount. Charter schools on a proprietary payroll system, pay the full report amount, which includes fringe benefits and payroll taxes. As with all State agencies, employer payroll taxes are paid by the State of Hawaii, Department of Budget & Finance and the Commission records a pass through receivable from the State and payable to the charter schools.

Federal program funds that have been received by the Commission by June 30, 2022 and are to be directly passed on to the charter schools, but paid to the charter schools after year-end, are also included in the pass through accounts.

Unearned Revenue

The Commission reports unearned revenue in the financial statements. Unearned revenue arises when potential revenue does not meet both the measurable and available criteria for recognition in the current period. In general, federal monies received in the current year, which have not been expended for the federal purpose by year-end are unearned.

Implementation of New GASB Pronouncement

In June 2017, GASB issued Statement No. 87, *Leases* (GASB No. 87), to better meet the information needs of financial statement users by improving accounting and financial reporting for leases by governmental units. This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It also establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Limited exceptions are provided for short-term leases (those with maximum terms of 12 months at inception, including any options to extend) and leases of \$1 or less per year.

Implementation of GASB No. 87 had a significant effect on the Commission's financial statements for the year end June 30, 2022.

STATE PUBLIC CHARTER SCHOOL COMMISSION
(An Agency of the State of Hawaii)

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Year Ended June 30, 2022

NOTE B – CASH AND CASH EQUIVALENTS AND INVESTMENTS

The State of Hawaii, Director of Finance is responsible for the safekeeping of all monies deposited into the State Treasury. The Director of Finance pools and invests any monies of the Commission, which in the Director's judgment, are in excess of the amounts necessary for meeting the specific requirements of the Commission. Investment earnings are allocated to the Commission based on its equity interest in the pooled monies.

Legally authorized investments include obligations of or guarantees by the U.S. Government, obligations of the State, federally-insured savings and checking accounts, certificates of deposits, and repurchase agreements with federally-insured financial institutions.

NOTE C – CAPITAL ASSETS

For the year ended June 30, 2022, capital asset activity, including lease assets, for the governmental activities of the Commission was as follows:

	<u>Beginning Balance</u>	<u>Additions</u>	<u>Deletions</u>	<u>Ending Balance</u>
Capital assets being depreciated				
Office and computer equipment	\$ 338,504	\$ 14,077	\$ -	\$ 352,581
Accumulated depreciation	<u>(296,536)</u>	<u>(20,441)</u>	<u>-</u>	<u>(316,977)</u>
Capital assets, net of depreciation	<u>41,968</u>	<u>(6,364)</u>	<u>-</u>	<u>35,604</u>
Lease assets				
Building	-	980,035	-	980,035
Accumulated amortization	<u>-</u>	<u>(112,004)</u>	<u>-</u>	<u>(112,004)</u>
Lease assets, net of amortization	<u>-</u>	<u>868,031</u>	<u>-</u>	<u>868,031</u>
 Total capital assets, net	 <u>\$ 41,968</u>	 <u>\$ 861,667</u>	 <u>\$ -</u>	 <u>\$ 903,635</u>

NOTE D – LEASE LIABILITY

The Commission leases office space and office equipment in Honolulu, Hawaii. In April 2020, the Commission moved to a new office space and signed a lease effective through March 31, 2030. The new office space lease includes a monthly base rent of \$10,475. The discounted rate used to determine the present value of its future lease payments is based on its estimated incremental borrowing rate of 2.87%.

STATE PUBLIC CHARTER SCHOOL COMMISSION
(An Agency of the State of Hawaii)

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Year Ended June 30, 2022

NOTE D – LEASE LIABILITY(Continued)

At June 30, 2022, the principal and interest payments to maturity are expected to approximate the following:

	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
Years Ending June 30th			
2023	\$ 97,222	\$ 24,165	\$ 121,387
2024	100,998	21,393	122,391
2025	107,052	18,348	125,400
2026	111,297	15,232	126,529
2027	117,976	11,938	129,914
2028-2030	<u>351,683</u>	<u>14,610</u>	<u>366,293</u>
Total	<u>\$886,228</u>	<u>\$105,686</u>	<u>\$991,914</u>

In addition, the Commission leases office equipment under a lease agreement that expires in March 2024. Lease expenses for payments not included in the measurement of the lease liability for the year ended June 30, 2022 amounted to \$11,890, which includes certain usage charges.

At June 30, 2022, future minimum lease payments approximated the following:

Years Ending June 30th	
2023	\$ 9,600
2024	\$ 9,600

NOTE E – CONTINGENCIES

The Commission is subject to legal proceedings, claims, or litigation arising in the ordinary course of business for which it seeks the advice of the Attorney General of the State of Hawaii. Management estimates that the cost to resolve such matters, if any, would not be material to the financial statements. However, it is reasonably possible that such estimates may change within the near term.

The Commission is in the process of recovering approximately \$750,000 from a charter school. Due to remaining uncertainties, no provision for such recovery has been made in the accompanying financial statements. The Commission reported \$151,530 in funds held for others related to the respective charter school during the year ended June 30, 2022.

STATE PUBLIC CHARTER SCHOOL COMMISSION
(An Agency of the State of Hawaii)

NOTES TO THE FINANCIAL STATEMENTS (Continued)

For the Year Ended June 30, 2022

NOTE E – CONTINGENCIES (Continued)

The Commission operates in the State of Hawaii. Local, national, and international events (such as the COVID-19 pandemic and Russia-Ukraine conflict) can have severe, adverse effects on economic conditions in Hawaii. These financial statements do not include the adjustments that would result if the Commission were to account for future losses or asset impairments, as the effect on the financial statements of the Commission from such changes in economic conditions are not presently determinable.

NOTE G – SUBSEQUENT EVENTS

Management has evaluated subsequent events through **November XX, 2022**, which is the date the financial statements were available to be issued, and determined that the Commission did not have any subsequent events requiring adjustment to the financial statements or disclosure in the notes to the financial statements.

STATE PUBLIC CHARTER SCHOOL COMMISSION
(An Agency of the State of Hawaii)

NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS

For the Year Ended June 30, 2022

NOTE A – BASIS OF PRESENTATION

The accompanying Schedule of Expenditures of Federal Awards (Schedule) includes the federal grant activity of the State Public Charter School Commission (Commission) and is presented on the accrual basis of accounting. The information in this Schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Therefore, certain amounts presented in this Schedule may differ from amounts presented in, or used in the preparation of, the basic financial statements of the Commission.

* Denotes major programs.

NOTE B – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The expenditures are recognized following the cost principles contained in the Uniform Guidance, wherein certain types of expenditures are not allowable or are limited as to reimbursement. In addition, pass-through entity identifying numbers are presented where available.

NOTE C – INDIRECT COST RATES

The Commission has not elected to use the 10 percent de minimis indirect cost rate as allowed under the Uniform Guidance.

PART III
INTERNAL CONTROL AND COMPLIANCE

Draft

**INDEPENDENT AUDITOR’S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND REPORT ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

State Public Charter School Commission:

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of the State Public Charter School Commission (Commission) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Commission’s basic financial statements, and have issued our report thereon dated **November XX, 2022**.

Report on Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Commission’s internal control as a basis for designing the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Commission’s internal control. Accordingly, we do not express an opinion on the effectiveness of the Commission’s internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency or combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses or significant deficiencies may exist that were not identified.

Report on Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Commission's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, including applicable provisions of the Hawaii Public Procurement Code (Chapter 103D of the Hawaii Revised Statutes) and procurement rules, directives, and circulars, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Commission's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Commission's internal control and compliance. Accordingly, this report is not suitable for any other purpose.

CW Associates, CPAs
Honolulu, Hawaii
November XX, 2022

**INDEPENDENT AUDITOR'S REPORT ON
COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM
AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
IN ACCORDANCE WITH THE UNIFORM GUIDANCE**

State Public Charter School Commission:

Report on Compliance for Each Major Federal Program

Opinion on Each Major Federal Program

We have audited the compliance of the State Public Charter School Commission (Commission) with the types of compliance requirements described in the *U. S. Office of Management and Budget (OMB) Compliance Supplement* that could have a direct and material effect on each of the Commission's major federal programs for the year ended June 30, 2022. The major federal programs of the Commission are identified in the summary of auditor's results section of the accompanying Schedule of Findings and Questioned Costs.

In our opinion, the Commission complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2022.

Basic for Opinion on Each Major Federal Program

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS); the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States (Government Auditing Standards); and the requirements of Title 2 U.S. Code of Federal Regulations (CFR) Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Our responsibilities under those standards and the Uniform Guidance are further described in the *Auditor's Responsibilities for the Audit of Compliance* section of our report.

We are required to be independent of the Commission and to meet our other ethical responsibilities, in accordance with relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on compliance for each of the major federal programs. Our audit does not provide a legal determination of the Commission's compliance with the compliance requirements referred to above.

Responsibilities of Management for Compliance

Management is responsible for compliance with the requirements referred to above and for the design, implementation, and maintenance of effective internal control over compliance with the requirements of laws, federal statutes, regulations, and the terms and conditions of the Commission's federal programs.

Auditor's Responsibility for the Audit of Compliance

Our objectives are to obtain reasonable assurance about whether material noncompliance with the compliance requirements referred to above occurred, whether due to fraud or error, and express an opinion on the Commission's compliance based on our audit. Reasonable assurance is a high level of assurance but is not absolute assurance and, therefore, is not a guarantee that an audit conducted in accordance with U.S. GAAS, *Government Auditing Standards*, and the Uniform Guidance will always detect material noncompliance when it exists. The risk of not detecting material noncompliance resulting from fraud is higher than for that resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Noncompliance with the compliance requirements referred to above is considered material, if there is a substantial likelihood that, individually or in the aggregate, it would influence the judgment made by a reasonable user of the report on compliance about the Commission's compliance with the requirements of the major federal program as whole.

In performing an audit in accordance with U.S. GAAS, *Government Auditing Standards*, and the Uniform Guidance, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material noncompliance, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the Commission's compliance with the compliance requirements referred to above and performing such other procedures as we considered necessary in the circumstances.
- Obtain an understanding of the Commission's internal control over compliance relevant to the audit in order to design audit procedures that are appropriate in the circumstances and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of the Commission's internal control over compliance. Accordingly, no such opinion is expressed.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and any significant deficiencies and material weaknesses in internal control over compliance that we identified during the audit.

Report on Internal Control Over Compliance

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Report on Internal Control over Compliance (continued)

Our consideration of internal control over compliance was for the limited purpose described in the *Auditor's Responsibilities for the Audit of Compliance* section above and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies in internal control over compliance, and therefore, material weaknesses or significant deficiencies may exist that were not identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above. However, material weaknesses or significant deficiencies in internal control over compliance may exist that were not identified.

Our audit was not designed for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, no such opinion is expressed.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.
