

**STATE OF HAWAII
DEPARTMENT OF EDUCATION**
P.O. BOX 2360
HONOLULU, HAWAII 96804

OFFICE OF THE SUPERINTENDENT

March 3, 2022

TO: The Honorable Kili Namau'u
Chairperson, Student Achievement Committee

FROM: Keith T. Hayashi 
Interim Superintendent

SUBJECT: **Committee Action on Fine Arts Standards for Elementary and Secondary Grade Levels**

1. EXECUTIVE SUMMARY

The Hawaii State Department of Education (Department) is committed to providing all students with equitable access to high-quality education that is aligned to the Hawaii Standards System. Standards provide the structure for designing age-appropriate and developmentally appropriate learning experiences for all students in all content areas, including fine arts education (Attachment A).

Standards-based fine arts education, including the fundamental art disciplines of dance, music, theater, and visual arts, is part of the foundation for student success in school, work, and life. The arts help develop learning processes and support students to develop the following essential 21st-century skills: critical thinking, problem-solving, communication of ideas and responses, collaboration, creativity, and innovation.

Adoption of the National Core Arts Standards (NCAS) supports the following:

- The Department's mission to serve our community by ensuring equity, empowerment, and excellence in education for all students.
- Hawaii State Board of Education (Board) Policies 105-1 - Academic Program, 105-9 - Fine Arts Programs, 105-2 - Responsibility for Curriculum Development and Implementation, and 102-3 - Statewide Content and Performance Standards (Attachment B).

Additionally, when approved, the NCAS will align with the Department's Nā Hopena A'o framework by supporting all students' well-rounded education through high-quality standards-based curriculum, instruction, and assessments.

Board Policy 102-3, Statewide Content and Performance Standards, which serves as a basis for the Board adopting and the Department implementing content and performance standards, applies to charter schools in addition to Department schools. Charter school

authorizers, such as the Hawaii State Public Charter School Commission, hold charter schools accountable to the content and performance standards adopted by the Board. Implementation of standards at the school level takes time; to ensure authorizers have the flexibility to exclude newly adopted standards from high-stakes accountability decisions over their charter schools, we recommend delaying the effective date of these standards for charter schools for three years.

2. RECOMMENDATION

The Department recommends that the Board adopt all standards for dance, media arts, music, theater, and visual arts of the NCAS for kindergarten through the 12th grade (Attachment C) as described in this memorandum, effective July 1, 2022 for Department schools and July 1, 2025 for charter schools.

3. RECOMMENDED EFFECTIVE DATE

July 1, 2022 for Department schools and July 1, 2025 for charter schools.

4. RECOMMENDED COMPLIANCE DATE (if different from the effective date)

Same as the above recommended effective dates.

5. DISCUSSION

a. Conditions leading to the recommendation:

Designed to guide the delivery of fine arts education in the classroom with new ways of thinking, learning, and creating, the NCAS provides and guides teachers in developing high-quality and unified quality fine arts education for students in kindergarten through the 12th grade.

Currently, the NCAS is widely recognized and used by federal and state agencies, educational institutions, and professional organizations that support fine arts education, including the Department of Defense Education Activity schools, the University of Hawaii at Manoa's (UHM) College of Education, and the Hawaii Music Educators Association.

In School Year 2016-2017, the Fine Arts department chairpersons in the secondary and elementary school art specialist workgroup collaborated on the crosswalk between Hawaii Content and Performance Standards (HCPS) III for Fine Arts with the NCAS. The Department also gathered feedback on the NCAS from various stakeholders, including complex area superintendents, principals, vice-principals, general education teachers, special education teachers, fine arts teachers, resource teachers, educational specialists, counselors, academic coaches, parents/legal guardians, students, art program directors, state agencies, community arts organizations, and teaching artists (Attachment D).

State agencies and programs such as the Hawaii Music Educators Association, UHM College of Education, Honolulu Museum of Art's Art School, Hawaii Arts Alliance, and Hawaii State Foundation on Culture and the Arts provided expertise and guidance. Through the crosswalk and feedback, it was determined that NCAS would provide our students with higher-level thinking skills, a greater depth of knowledge, and a whole-child focused experience.

During the fine arts standards adoption processes, the charter schools were engaged through the following:

- Fine Arts department chair meeting open to all schools held in 2018. As part of the meeting, Department and charter school fine arts teachers gained an understanding of the NCAS.
- Charter schools were included as part of the Fine Arts stakeholder/public feedback opportunities. As part of the feedback collection, stakeholders and the public were asked to identify the top focus areas to support the implementation of the national standards. The opportunity was shared at the fine arts teacher non-credit professional development sessions which charter school fine arts teachers attended.

b. Previous action of the Board and Committee(s) on the same or similar matter:

The following table provides a list of content and performance standards that were brought before the Board for approval:

Date of Board Action	Approval of:
August 18, 2005	HCPS III for Social Studies, Fine Arts, World Languages, and Career and Technical Education
June 17, 2010	Common Core State Standards for English Language Arts and Common Core State Standards for Mathematics
February 16, 2016	Next Generation Science Standards
May 2, 2017	Hawaiian Language Arts Standards
May 3, 2018	K-12 Computer Science Teachers Association Standards
October 4, 2018	Hawai'i Core Standards in Social Studies
December 5, 2019	National Health Education Standards: Achieving Excellence

c. Other policies affected:

None. The adoption of the NCAS will not require any Board policy amendments.

d. Arguments in support of the recommendation:

To support the development of artistically literate students, the Department is currently using the HCPS III for Fine Arts K-12. These standards were developed based on the first National Arts Standards (NAS) created in 1994 and adopted by the Board in 2005. The NAS has since been refined to the NCAS second edition created in 2014.

Updating the Department's fine arts standards to the NCAS would strengthen students' critical-thinking skills, creativity, character, appreciation of diversity, and social and emotional learning. The NCAS would improve students' skills to succeed in college, career, and community.

The following table provides a comparison between the HCPS III for Fine Arts and the NCAS. The NCAS provides Pre-K through twelfth-grade performance standards that outline an age-appropriate developmental progression of artistic study that provides the foundation for curriculum, instruction, and assessment.

	HCPS III for Fine Arts	NCAS
Grade performance standards	K to 12	Pre-K to 12
Artistic disciplines	Dance, Music, Theater/Drama, Visual Arts	Dance, Media Arts , Music, Theater/Drama, Visual Arts
Standards per artistic discipline	1	11
Benchmarks per standard	Dance - 4 Music - 4 Theater/Drama - 3 Visual Arts - 5	Dance - 21 Media Arts - 18 Music - 28 Theater/Drama - 24 Visual Arts - 15
Teach resources	Sample assessments with rubric aligned to benchmark	Grade assessments Assessment template Student work samples Enduring understanding Essential questions

Along with the current artistic disciplines of dance, music, theater, and visual arts, the NCAS includes a newly added discipline, media arts. The media arts standards reflect a broadened definition of arts-making that includes contemporary forms such as animation, film, gaming, and interactive and computer-based art-making that focuses on the elements and principles of art and design.

The NCAS would provide a clear and in-depth standards framework for teachers and administrators in designing or selecting curricula, allocating instructional resources, and assessing student achievement and progress. The standards provide students, families, and communities with concrete expectations for fine arts education.

For teachers, adoption of the standards will:

- Enable them to design curricula that support higher-level thinking skills and depth of knowledge for all learners,
- Enable them to tailor learning experiences to the whole child-focused experience, and
- Support educators who are already engaged in or interested in rigorous and relevant fine arts instruction.

For students, adoption of the standards will:

- Help them to develop their senses as creative thinkers, creative makers, and creative responders to the world around them;
- Equip them with the knowledge and skills to collaborate and communicate by using their artistic production and personal voice; and
- Help them define processes that cultivate their problem-solving skills for success in career, college, and life.

The following diagram outlines the next steps for fine arts education upon approval to adopt the NCAS.

Upon the Board's approval to adopt the NCAS, the Department will provide comprehensive support for complex areas and schools to implement the NCAS. Preparation and initial scale-up for implementation will be projected to take place between School Years 2022-2025 and full implementation will be projected to take place in School Year 2025-2026.

The Department will communicate the following with complex areas and schools over an extended period of time:

- Information about the NCAS.
- Opportunities for professional development and technical assistance to support teacher collaboration.
- Availability of materials, tools, and professional learning modules as standards implementation resources.
- Opportunities for complex areas and schools to provide feedback on complex area and school needs.
- Opportunities for complex areas and schools to share fine arts "bright spots."

The Department will develop and expand current guidance documents and resources to support complex areas and schools implementing fine arts education standards. Free online resources will be publicly accessible to support comprehensive fine arts education within the Department and strengthen communication with families and the community. Additional online resources and professional development will be created to support the implementation of the NCAS.

While these standards will be implemented in kindergarten through the 12th grade, the Department will also serve pre-kindergarten by extending resources and support for developmentally appropriate practices in pre-kindergarten fine arts education.

e. Arguments against the recommendation:

None.

f. Other agencies or departments of the State of Hawai'i involved in the action:

In addition to the presentations and feedback opportunities listed in Attachment D, discussions regarding the adoption of NCAS include the following agencies and Department offices:

- The University of Hawaii at Manoa, College of Education
- The University of Hawaii at Manoa, College of Arts, Languages, and Letters
- Hawaii State Foundation on Culture and the Arts

The response has been favorable from all parties.

g. The possible reaction of the public, professional organizations, unions, Department staff, and/or others to the recommendations:

The overall reaction to the adoption of the NCAS is expected to be favorable. The Department provided an opportunity for all stakeholders to offer input on the standards.

Discussions regarding the adoption of NCAS include the following non-State of Hawai'i agencies:

- Hawaii Arts Alliance
- Hawaii Music Educators Association
- Honolulu Theatre for Youth
- Maui Arts and Cultural Center
- Honolulu Museum of Art
- Oahu Band Directors Association
- Hawaii Art Education Association

The consensus is that the adoption of the NCAS is a step forward for fine arts education and that its implementation will require professional development, time, resources, and communication.

h. Educational implication:

The Department's Office of Curriculum and Instructional Design is responsible for ensuring continual improvement in the design, support, and implementation of standards-based curriculum, instruction, and assessment as part of our system-wide accountability approach to close the opportunity and achievement gap. Fine arts education supports our students' future success. The arts are a vehicle for students to connect to total personal well-being and a sense of belonging in school, community, and home.

The adoption of the NCAS will enable alignment with research-based best practices in fine arts education teaching, learning, and professional development. The NCAS will support equitable access to high-quality, comprehensive fine arts education experiences and opportunities for students that build coherently from kindergarten through the 12th grade.

i. Personnel implications:

None.

j. Facilities implications:

None.

k. Financial implications:

The Department will rely on existing resources and personnel to support schools and teachers with the implementation of the NCAS. Existing schools' fine arts education instructional materials and free online resources may align with the NCAS, thus reducing the need for schools to purchase new instructional materials.

6. OTHER SUPPLEMENTARY RECOMMENDATIONS

THE SYSTEM OF STANDARDS
Office of Curriculum and Instructional Design
February 22, 2022

Fundamentally, standards provide all students with access to high expectations, challenging curricula, and effective teaching. Standards associate equity with excellence and ensure that students have the knowledge and skills necessary to participate in daily activities and in the workplace and to pursue their goals and aspirations.

The standards describe educational targets in all 10 content areas for all students in grades K-5. All students, therefore, are expected to be given the opportunity to meet all of the K-5 standards. At the secondary level, however, the standards describe different things in different content areas. For content areas (Language Arts, Mathematics, Science, Social Studies, Health, and Physical Education) the standards describe expectations for all students since all students are expected to take certain required courses in these areas. For content areas (Fine Arts, World Languages, Career and Technical Education, and Computer Science) they describe a continuum that should be expected by students who choose courses in these areas as electives. It should be emphasized that all courses, required or elective, are standards-based and are part of the Hawaii Standards System.

THE HAWAII STANDARDS SYSTEM

The Hawaii Standards System is more than the standards alone. The Hawaii Standards System supports standards-based education through curriculum, instruction, and assessment components. The system also provides student instructional support components such as Special Education and English Learners. It also includes the Hawaii Multi-Tiered System of Support Framework.

The Hawaii Standards System supports school-level implementation of standards-based education by

- Identifying the targets for student learning such as the Vision of the Public School Graduate, General Learner Outcomes, the Hawaii Standards, and other course standards;
- Providing curricular and behavioral support for students through direct services to students and their families; and
- Developing, acquiring, and assuring access to support for the implementation of standards-based education for teachers, school leaders, and other academic staff.

The standards contain

- Essential content and skills in 10 content areas: Career and Technical Education, Computer Science, Fine Arts, Health, Language Arts, Mathematics, Physical Education, Science, Social Studies, and World Languages;
- Standards that describe the educational expectations for all students in grades K-5;

- Essential standards for all required courses: Language Arts, Math, Science, Social Studies, Health, and Physical Education; and
- Essential standards that can be met through elective courses chosen by secondary students to fulfill graduation requirements in Career and Technical Education, Computer Science, Fine Arts, and World Languages.

Included in the Hawaii Standards System are standards for courses not found in this document. Because all courses are standards-based, these specialized courses utilize

- Industry or national standards that describe essential content and skills for elective courses in areas such as Career and Technical Education Programs of Study (BOE Policy 105-6); and
- Multi-disciplinary courses that are not included in one of the 10 content areas.

THE STANDARDS IMPLEMENTATION PROCESS MODEL

The Standards Implementation Process Model is a framework that has been adapted from West Ed's Learning from Assessment model. It consists of a series of six steps.

- The first step in the process asks a teacher to identify relevant benchmarks. The teacher decides which benchmarks will be the central focus of a lesson or unit.
- In the second step, the teacher determines what evidence will show that the students have met the benchmarks.
- In the third step of the process, the teacher plans the strategies and experiences which will build understanding and help all students meet proficiency.
- The fourth and fifth steps require the collection of evidence of student learning. The teacher determines what this evidence indicates about the student's progress and decides what further instruction or support is needed.
- Lastly, the teacher evaluates the work and communicates the findings.

While the model numbers the steps in the process, it is important to remember that these steps are not always followed in a lock-step fashion. For example, a teacher may work through steps one to five, and as she collects the evidence of student learning (step five), she will likely gain insight that will inform step three (determine learning experiences). In her review of the work, she may notice that many students are not meeting a certain aspect of a particular benchmark. For example, the students may be able to correctly compare fractions but may be unable to explain why they placed the fractions in a particular order. This evidence will inform step three and the teacher will likely design additional learning experiences designed to help students place fractions in a particular order.

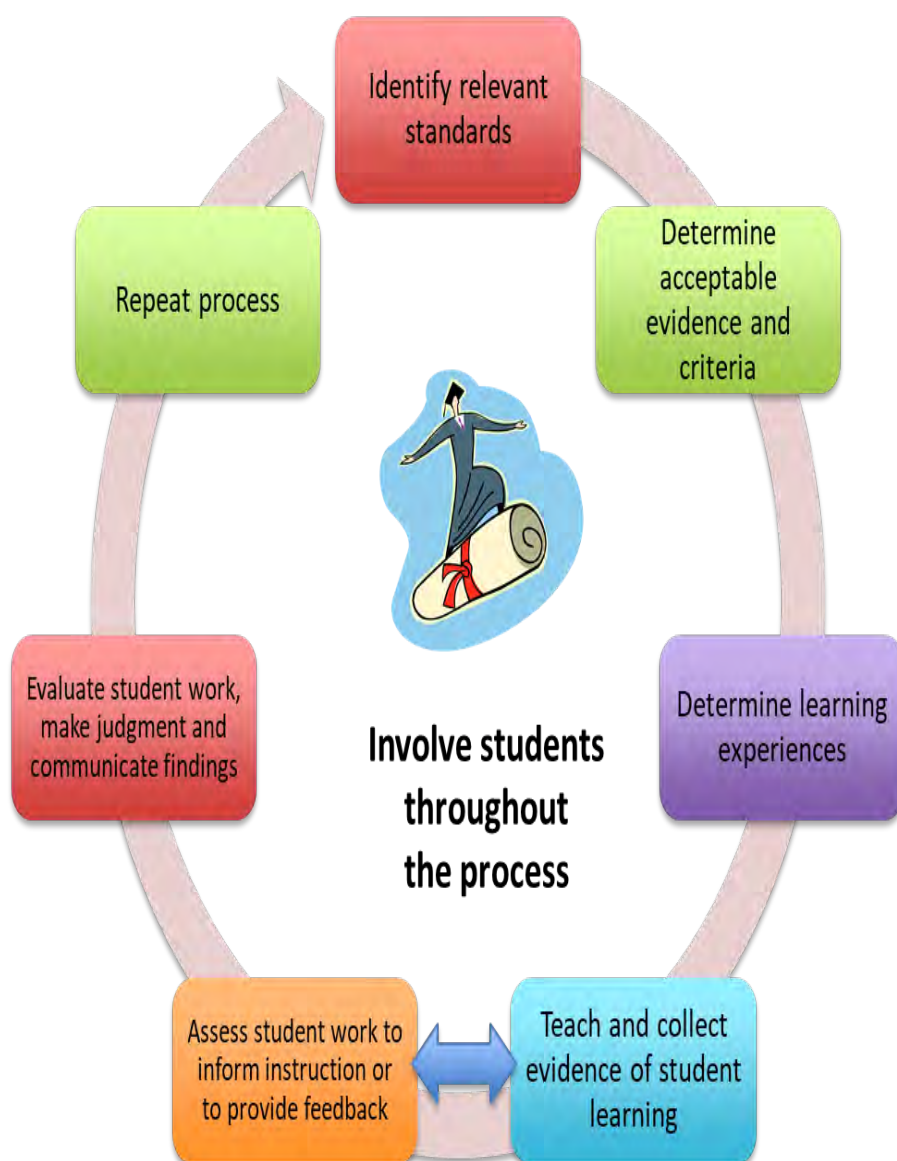

STANDARDS IMPLEMENTATION PROCESS MODEL

1. Identify relevant benchmarks.
2. Determine acceptable evidence and criteria.
3. Determine learning experiences that will enable students to learn what they need to know and to do.

4. Teach and collect evidence of student learning.
5. Assess student work to inform instruction or use data to provide feedback.
6. Evaluate student work and make judgments on learning results and communicate findings.

The graphic below shows the six-step standards Implementation Process Model.

CURRICULUM MANAGEMENT SYSTEM

Statewide standards adoption and related processes

The [Curriculum Management System \(CMS\)](#) provides clear guidelines and procedures for significant areas related to standards-based teaching and learning. Standards-based teaching and learning form the backbone of our education system.

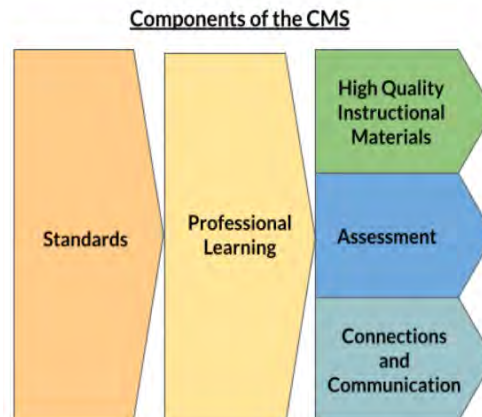

Adopting or revising new standards requires high-quality instructional materials, professional learning, alignment to assessment, and clear communication and connection across initiatives. The CMS is to be used in the tri-level system to define the roles and responsibilities of each level. The CMS aligns with the Hawai'i State Board of Education (BOE) policies and other applicable regulations. It establishes timelines and tools for standards, the Instructional Materials Approval Process (IMAP) for high-quality instructional materials review, and defines key terms to ensure common language and understanding.

Four guiding principles drive all work aligned to this plan:

- Equity and excellence
- Connections to culture and place
- Focus on the whole child
- College, career, and community readiness

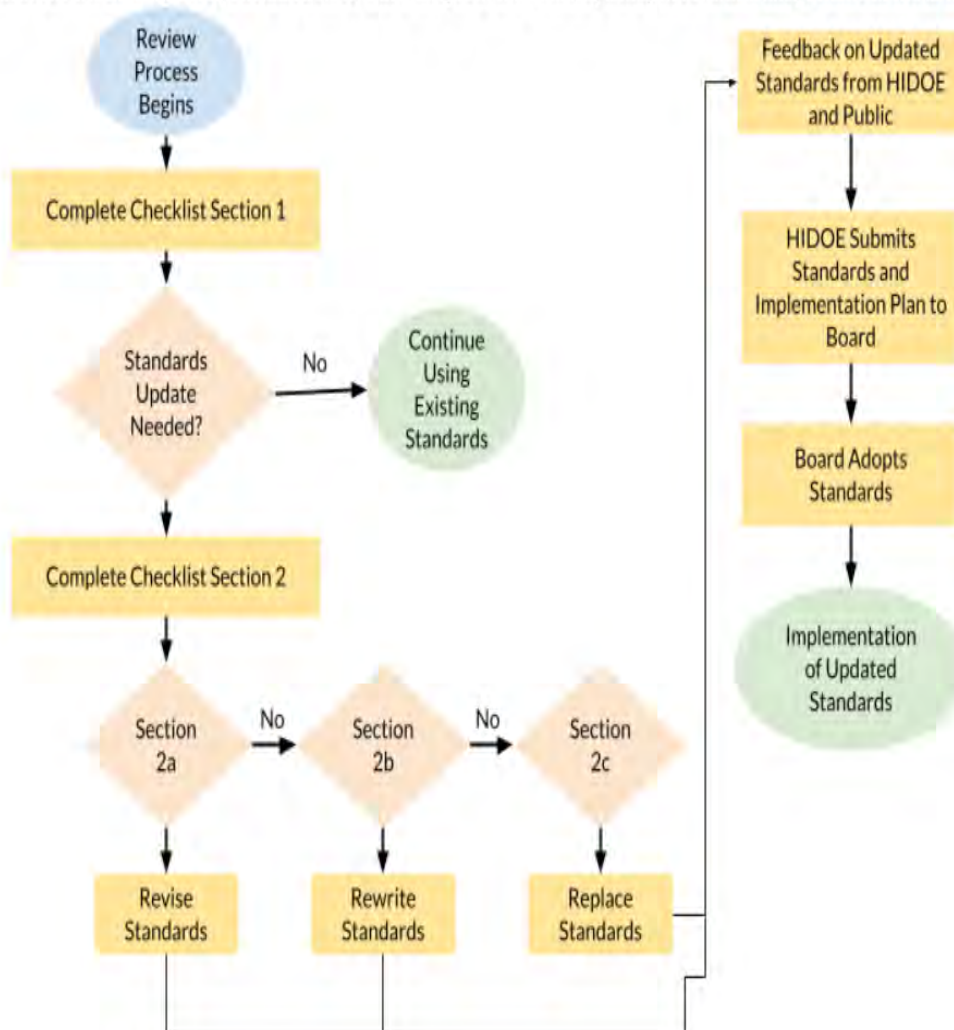

The components of the CMS are:

- Standards;
- High-Quality Instructional Materials;
- Professional Learning;
- Assessment; and
- Communication and Connections

LEGAL AUTHORITY FOR THE EDUCATION PROGRAM

The legal authority for the standards-based education program is described in the Hawaii Revised Statutes and Board of Education policies. Relevant Hawaii Revised Statutes and Board of Education policies are listed here.

POLICY 105-1 ACADEMIC PROGRAM

The Board recognizes that one of the key components to student achievement and success is a quality, standards-based academic program. Therefore, the Department shall provide an academic program to equip each student with the knowledge, skills, attitudes, and values needed to attain the applicable statewide content and performance standards as adopted by the Board. The Department shall provide standards-based learning experiences to develop and nurture a variety of intelligences.

Effective learning shall be facilitated through the maximum and active participation of each student in the learning process, ensuring that personal meaning is derived from curriculum content, appropriate and relevant teaching and learning strategies, and self-assessment as well as standards-based assessment, grading and reporting procedures. Each school shall offer a comprehensive program of academic education to meet the needs, interests, and abilities of all students, including language arts, mathematics, science, social studies, health, physical education, fine arts, world languages, and career and life skills.

[Approved: 11/17/2015 (as Board Policy 105.1); amended: 06/21/2016 (renumbered as Board Policy 105-1)]

Former policy 2100 history: adopted: 10/1970; amended: 08/1086, 03/1988, 01/1999, 01/05/2006

POLICY 102-2 K-12 LITERACY

Literacy shall be attained through an appropriate framework of curriculum and instruction. Literacy is the ability in any content or context to read, write, and communicate. Other skills that enhance literacy include relating, expressing, speaking, understanding, listening, critical thinking, analyzing, and problem-solving.

The language arts standards contained in the applicable statewide content and performance standards specify what all students should know and be able to do to be literate. To attain this goal, all schools shall provide a balanced and comprehensive reading and writing program that includes the direct teaching of: (1) comprehension of content and language in both oral and written forms; (2) organized and explicit skills instruction, that includes phonemic awareness, phonic analysis, and decoding skills, especially in the early grades; and (3) fluency and

vocabulary development that includes an understanding of how words work. The reading and writing program shall also provide: (4) on-going diagnosis and assessment that ensures accountability for results; (5) effective writing practices to be integrated into the reading and writing program; and (6) timely intervention services to assist students who are at risk of failing attainment of literacy.

An effective early reading and writing program shall be implemented to assure that every child will become a proficient reader and writer, as defined by the Department, by the end of third grade.

In the instructional program for grades 4-12, all content areas shall further support the development of literacy skills such that students can access and communicate subject area content and concepts using a wide variety of print and non-print materials.

Students identified by the Department as not proficient will receive appropriate assistance and support.

Rationale: The development of student literacy in all content areas and in all grade levels is an educational and cultural imperative.

Former policy 2010 history: approved: 10/1994 (Curriculum and Instruction Policy); amended: 04/1998; 06/2002; 10/19/2006

POLICY 102-3 STATEWIDE CONTENT AND PERFORMANCE STANDARDS

To ensure high academic expectations, challenging curriculum, and appropriate assessment and instruction for all public school students statewide, including public charter schools, in accordance with Chapter 302A-201 of the Hawaii Revised Statutes, the Board of Education shall adopt statewide content and performance standards that specify what students in all public schools, including charter schools, must know and be able to do. The Department of Education shall implement statewide content and performance standards approved by the Board of Education.

Schools shall articulate and align their curricular, assessment and instructional program—by grade level, subject area, courses, and/or other appropriate units—with the applicable statewide content and performance standards and evaluate the effectiveness of their efforts to help all students attain the standards. The school's articulated curricular, assessment and instructional program shall be shared with parents and students with the intent of involving parents/guardians as partners in the education of their children.

The Superintendent shall develop and implement a plan to create a standards-based and performance-oriented education system that will ensure that all students attain the standards.

[Approved: 10/06/2015 (as Board Policy 102.3); amended: 06/21/2016 (renumbered as Board Policy 102-3)]

Former policy 2015 history: approved: 10/1995; amended: 11/2001; 06/23/2005

POLICY 105-2 RESPONSIBILITY FOR CURRICULUM DEVELOPMENT AND IMPLEMENTATION

The Department of Education shall provide guidance to schools in developing and implementing curriculum and instruction for the public school system. The responsibility for developing curriculum shall be shared by the Superintendent and the schools. The responsibility for developing and delivering the instructional program shall rest primarily with the schools. The Superintendent shall provide the general direction in curriculum and instruction by providing guidance in the use of effective teaching, learning, and assessment strategies appropriate to statewide content and performance standards.

[Approved: 05/05/2015 (as Board Policy 105.2); amended: 06/21/2016 (renumbered as Board Policy 105-2)] Former policy 2030 history: former code no. 6123.2; former policy approved: 07/1960; amended: 10/1970, 03/1988; 03/1999

POLICY 105-3 CURRICULUM

All elementary (grades K-5) and secondary schools (middle/intermediate and high) shall offer a program of studies—or curriculum—that enables all students to attain, to the highest degree possible, the applicable statewide content and performance standards as adopted by the Board. The curricula shall include:

Academic courses, subjects, and/or units of study;

Relevant instructional activities and materials;

Specific learner outcomes or expectations that result in student attainment of grade-level benchmarks or learning outcomes that result in meeting expectations for high school graduation;

A timeframe in which outcomes are expected to be achieved;

Assessment tools and methods, including collection and analysis of student growth and attainment of outcomes and benchmarks;

Planned, systematic co-curricular activities and student academic support services, such as counseling and guidance; and

To the extent reasonably possible, all schools shall offer curricula that is culturally relevant and reflective of the community that it serves.

Every school shall articulate and coordinate curriculum and curricular services between and among grade levels and subject areas and with other schools within its complex.

The Department and complex areas shall provide guidance to assist schools in the implementation of this policy.

Rationale: A strong, challenging curriculum is key to student success and achievement. Research has shown that when curricula connects to students and their communities, there is increased engagement which leads to school achievement.

[Approved: 11/17/2015 (as Board Policy 105.3); amended: 06/21/2016 (renumbered as Board Policy 105-3)] Former policy 2101 history: approved: 11/03/2005

POLICY 105-4 INSTRUCTIONAL MATERIALS

Instructional materials, such as printed materials, media and electronic resources, which address applicable statewide content and performance standards, shall be selected for classroom use.

The Department of Education office providing curricular support shall provide a list of recommended instructional materials for select curricular areas. It shall also provide general and content-specific evaluation criteria for schools to use when evaluating instructional materials.

Schools that select instructional materials not on the list of recommended instructional materials shall demonstrate that these materials will better support their students' learning needs. Evidence shall include statewide assessment results and other data documenting student achievement.

Schools shall develop and implement a multi-year instructional materials acquisition/replacement plan that is based on instructional needs. This shall be a key component of a school's academic and financial plan. Schools shall inform parents and make available to their school communities the instructional materials acquisition/replacement plan, and its adequacy in meeting students' needs.

Rationale: Implementation of standards-based education requires instructional materials that are aligned with applicable standards.

[Approved: 05/05/2015 (as Board Policy 105.4); amended: 06/21/2016 (renumbered as Board Policy 105-4)] Former policy 2240 history: former code nos.: 6134, Textbooks and Reference Materials; 6134.1, Approval of Reference Materials Offered by Special Interest Groups; former policy 6134.1: approved: 01/1955; reviewed 07/1960; revised and included above 04/1970; approved: 10/1970; amended: 03/1988, 05/1995, 03/1997, 09/1998, 01/05/2006

POLICY 105-6 CAREER AND TECHNICAL EDUCATION

Career and Technical Education encompasses both career and academic education and shall be incorporated into the curriculum at each grade level in the public schools. Elementary and middle/intermediate schools shall implement technological design and career planning standards by integrating career awareness and exploration opportunities into the curriculum. High schools shall offer rigorous and relevant Programs of Study that integrate academic and technical skills standards which are organized within career pathways. Each Program of Study shall include a coherent sequence of courses based on academic, technical, and employability skills standards. Programs of Study standards shall be aligned with postsecondary education, labor, and industry. Assessment of Career and Technical Education Programs of Study, which includes data on student achievement and postsecondary opportunities, shall be a continuous process and shall guide program improvement.

Students who successfully complete all course requirements for graduation, and complete a Career and Technical Education Pathway Program of Study, including all requirements and assessments, shall be recognized for their academic and technical skill achievements. Recognition of the successful completion of a Career and Technical Education Program of Study will be documented on the students' transcript.

Collaboration by school administrators, staff, and students is essential in providing effective Career and Technical Education programs. Moreover, schools should involve their community stakeholders as full partners in developing quality Career and Technical Education programs organized within a Career Pathway System.

Rationale: Career and Technical Education is a distinct but integral component of a quality education system. Furthermore, while all education has vocational aspects, comprehensive Career and Technical Education programs help students develop the technical, academic, employability, and life skills needed for high wage and high skill careers and/or postsecondary education.

Hawaii Revised Statute §302A-323 Computer science; curricula plan; public schools.

(a) The department shall:

(1) Develop and implement a statewide computer science curricula plan for public school students in kindergarten through twelfth grade that may include design thinking as part of the curricula; and

(2) Beginning with the 2021-2022 school year, ensure that each public high school offers at least one computer science course during each school year.

(b) Beginning with the 2022-2023 school year, at least one public elementary school and one public middle or intermediate school in each complex area shall offer computer science courses or computer science content.

(c) Beginning with the 2023-2024 school year, no less than fifty percent of the public elementary schools and no less than fifty percent of the public middle and intermediate schools in each complex area shall offer computer science courses or computer science content.

(d) Beginning with the 2024-2025 school year, all public elementary, middle, and intermediate schools shall offer computer science courses or computer science content.

(e) By June 30, 2022, and by each June 30 thereafter, the superintendent shall submit to the board and legislature a report of the computer science courses and computer science content offered during the previous school year at the schools in each complex area. The report shall include:

(1) The names and course codes of the computer science courses offered at each School;

(2) The number and percentage of students enrolled in each computer science course and computer science content, disaggregated by:

(A) Gender;

(B) Race and ethnicity;

(C) Special education status, including students eligible for special education under the federal Individuals with Disabilities Education Act, as amended, or section 504 of the federal Rehabilitation Act of 1973, as amended;

(D) English language learner status;

(E) Eligibility for the free and reduced price lunch program; and

(F) Grade level;

provided that if a category contains one to five students, or contains an amount that would allow the amount of another category that contains one to five students to be determined, the number of students shall be replaced with a symbol indicating that one to five students fulfilled that particular category;

(3) The names and course codes of the courses containing computer science content and a description of the computer science standards and content that are covered by those courses; and

(4) The number of computer science instructors at each school, disaggregated by:

- (A) Any applicable certification;
- (B) Gender;
- (C) Race and ethnicity; and
- (D) Highest academic degree earned.

(f) For the purposes of this section, "offer" means to provide a computer science course or computer science content taught in the English or Hawaiian language by a teacher:

(1) Who is physically located at the school; or

(2) Who is not physically located at the school but provides instruction through virtual means with the assistance of a proctor who is physically located at the school.

POLICY 105-1

ACADEMIC PROGRAM

The Board recognizes that one of the key components to student achievement and success is a quality, standards-based academic program. Therefore, the Department shall provide an academic program to equip each student with the knowledge, skills, attitudes, and values needed to attain the applicable statewide content and performance standards as adopted by the Board. The Department shall provide standards-based learning experiences to develop and nurture a variety of intelligences.

Effective learning shall be facilitated through the maximum and active participation of each student in the learning process, ensuring that personal meaning is derived from curriculum content, appropriate and relevant teaching and learning strategies, and self-assessment as well as standards-based assessment, grading and reporting procedures. Each school shall offer a comprehensive program of academic education to meet the needs, interests, and abilities of all students, including language arts, mathematics, science, social studies, health, physical education, fine arts, world languages, and career and life skills.

POLICY 105-9

FINE ARTS PROGRAMS

The Board is committed to supporting fine arts programs in public schools. The Department shall assist Department schools in establishing and maintaining robust fine arts programs.

The goals of the Department's fine arts programs shall be to:

- Provide access to fine arts programs for all students (K-12);
- Ensure appropriate staff, materials, equipment, and facilities are available to support these programs;
- Exist as an integral part of the curriculum, providing understanding appropriate to the maturity, needs, and interest of students;
- Ensure elementary classroom teachers have a broad knowledge of Fine Arts concepts;
- Ensure that students in Hawaii's public schools graduate with a proficient level of understanding of fine art concepts; and
- Maintain and develop partnerships with fine arts organizations, professional artists, and the community to ensure expanded and diverse opportunities.

Rationale: Fine arts programs, which include dance, music, theatre, and visual arts, are an integral part of the academic program for all students (K-12) and the value and benefits of fine arts education has been extensively acknowledged. The arts help students broaden their understanding of the world and the diverse cultural influences that surround them. Fine arts education enables students to develop critical thinking skills, creativity, character, discipline, and an appreciation of diversity.

POLICY 105-2

RESPONSIBILITY FOR CURRICULUM DEVELOPMENT AND IMPLEMENTATION

The Department of Education shall provide guidance to schools in developing and implementing curriculum and instruction for the public school system.

The responsibility for developing curriculum shall be shared by the Superintendent and the schools. The responsibility for developing and delivering the instructional program shall rest primarily with the schools. The Superintendent shall provide the general direction in curriculum and instruction by providing guidance in the use of effective teaching, learning, and assessment strategies appropriate to statewide content and performance standards.

POLICY 102-3

STATEWIDE CONTENT AND PERFORMANCE STANDARDS

To ensure high academic expectations, challenging curriculum, and appropriate assessment and instruction for all public school students statewide, including public charter schools, in accordance with Chapter 302A-201 of the Hawaii Revised Statutes, the Board of Education shall adopt statewide content and performance standards that specify what students in all public schools, including charter schools, must know and be able to do. The Department of Education shall implement statewide content and performance standards approved by the Board of Education.

Schools shall articulate and align their curricular, assessment and instructional program—by grade level, subject area, courses, and/or other appropriate units—with the applicable statewide content and performance standards and evaluate the effectiveness of their efforts to help all students attain the standards. The school's articulated curricular, assessment and instructional program shall be shared with parents and students with the intent of involving parents/guardians as partners in the education of their children.

The Superintendent shall develop and implement a plan to create a standards-based and performance-oriented education system that will ensure that all students attain the standards.

Join with others to make a circle formation and work with others to change its dimensions.	a. Demonstrate locomotor and non-locomotor movements that change body shapes, levels, and facings. Move in straight, curved, and zig-zagged pathways. Find and return to place in space . Move with others to form straight lines and circles.	a. Demonstrate clear directionality and intent when performing locomotor and non-locomotor movements that change body shapes, facings, and pathways in space. Identify symmetrical and asymmetrical body shapes and examine relationships between body parts. Differentiate between circling and turning as two separate ways of continuous directional change.	a. Judge spaces as distance traveled and use space three-dimensionally. Demonstrate shapes with positive and negative space . Perform movement sequences in and through space with intentionality and focus.	a. Make static and dynamic shapes with positive and negative space . Perform elevated shapes (jump shapes) with soft landings and movement sequences alone and with others, establishing relationships with other dancers through focus of eyes.	a. Integrate static and dynamic shapes and floor and air pathways into dance sequences. Establish relationships with other dancers through focus of eyes and other body parts. Convert inward focus to outward focus for projecting out to far space.	a. Refine partner and ensemble skills in the ability to judge distance and spatial design . Establish diverse pathways, levels, and patterns in space . Maintain focus with partner or group in near and far space.	a. Expand movement vocabulary of floor and air pattern designs. Incorporate and modify body designs from different dance genres and styles for the purpose of expanding movement vocabulary to include differently designed shapes and movements for interest and contrast.	a. Sculpt the body in space and design body shapes in relation to other dancers, objects, and environment. Use focus of eyes during complex floor and air patterns or direct and indirect pathways.	a. Develop partner and ensemble skills that enable contrasting level changes through lifts, balances, or other means while maintaining a sense of spatial design and relationship. Use space intentionally during phrases and through transitions between phrases. Establish and break relationships with others as appropriate to the choreography.	a. Dance alone and with others with spatial intention. Expand partner and ensemble skills to greater ranges and skill level. Execute complex floor and air sequences with others while maintaining relationships through focus and intentionality.	a. Modulate and use the broadest range of movement in space for artistic and expressive clarity. Use inward and outward focus to clarify movement and intent. Establish and break relationships with other dancers and audience as appropriate to the dance.
	b. Identify speed of dance as fast or slow. Move to varied rhythmic sounds at different tempi .	b. Demonstrate tempo contrasts with movements that match to tempo of sound stimuli.	b. Relate quick, moderate and slow movements to duration in time. Recognize steady beat and move to varying tempi of steady beat.	b. Identify the length of time a move or phrase takes (for example, whether it is long or short). Identify and move on the downbeat in duple and triple meter. Correlate metric phrasing with movement phrasing.	b. Fulfill specified duration of time with improvised locomotor and non-locomotor movements. Differentiate between “in time” and “out of time” to music. Perform movements that are the same or of a different time orientation to accompaniment. Use metric and kinesthetic phrasing.	b. Accompany other dancers using a variety of percussive instruments and sounds. Respond in movement to even and uneven rhythms. Recognize and respond to tempo changes as they occur in dance and music.	b. Dance to a variety of rhythms generated from internal and external sources. Perform movement phrases that show the ability to respond to changes in time.	b. Use combinations of sudden and sustained timing as it relates to both the time and the dynamics of a phrase or dance work . Accurately use accented and unaccented beats in 3/4 and 4/4 meter.	b. Vary durational approach in dance phrasing by using timing accents and variations within a phrase to add interest kinesthetically, rhythmically, and visually.	b. Analyze and select metric, kinetic, and breath phrasing and apply appropriately to dance phrases. Perform dance phrases of different lengths that use various timings within the same section. Use different tempi in different body parts at the same time.	b. Use syncopation and accent movements related to different tempi . Take rhythmic cues from different aspects of accompaniment. Integrate breath phrasing with metric and kinesthetic phrasing.	b. Perform dance studies and compositions that use time and tempo in unpredictable ways. Use internal rhythms and kinetics as phrasing tools. Dance “in the moment.”	b. Modulate time factors for artistic interest and expressive acuity. Demonstrate time complexity in phrasing with and without musical accompaniment. Use multiple and complex rhythms (for example, contrapuntal and/or polyrhythmic) at the same time. Work with and against rhythm of accompaniment or sound environments .

	c. Move with opposing characteristics (for example, loose/tight, light/heavy, jerky/smooth).	c. Identify and apply different characteristics to movements (for example, slow, smooth, or wavy).	c. Demonstrate movement characteristics along with movement vocabulary (for example, use adverbs and adjectives that apply to movement such as a bouncy leap, a floppy fall, a jolly jump, and joyful spin).	c. Select and apply appropriate characteristics to movements (for example, selecting specific adverbs and adjectives and apply them to movements). Demonstrate kinesthetic awareness while dancing the movement characteristics.	c. Change use of energy and dynamics by modifying movements and applying specific characteristics to heighten the effect of their intent.	c. Analyze movements and phrases for use of energy and dynamic changes and use adverbs and adjectives to describe them. Based on the analysis, refine the phrases by incorporating a range of movement characteristics .	c. Contrast bound and free-flowing movements. Motivate movement from both central initiation (torso) and peripheral initiation (distal) and analyze the relationship between initiation and energy .	c. Use the internal body force created by varying tensions within one’s musculature for movement initiation and dynamic expression. Distinguish between bound and free-flowing movements and appropriately apply them to technique exercises and dance phrases.	c. Compare and contrast movement characteristics from a variety of dance genres or styles . Discuss specific characteristics and use adverbs and adjectives to describe them. Determine what dancers must do to perform them clearly.	c. Direct energy and dynamics in such a way that movement is textured. Incorporate energy and dynamics to technique exercises and dance performance. Use energy and dynamics to enhance and project movements.	c. Connect energy and dynamics to movements by applying them in and through all parts of the body. Develop total body awareness so that movement phrases demonstrate variances of energy and dynamics .	c. Initiate movement phrases by applying energy and dynamics . Vary energy and dynamics over the length of a phrase and transition smoothly out of the phrase and into the next phrase, paying close attention to its movement initiation and energy.	c. Modulate dynamics to clearly express intent while performing dance phrases and choreography. Perform movement sequences expressively using a broad dynamic range and employ dynamic skills for establishing relationships with other dancers and projecting to the audience.
